

The background is a complex, abstract digital composition. It features a dark blue base with vibrant, overlapping geometric shapes in shades of purple, pink, orange, and light blue. The design includes vertical lines, some with dashed patterns, and various angular forms that create a sense of depth and movement, reminiscent of a futuristic cityscape or a data visualization. A prominent circular element with a crosshair is visible on the right side.

Company

# Corporate Values

## ▲ PROFESSIONALISM

▲ We genuinely believe in our profession and take responsibility by saying “no” if saying “yes” would not do right by you. We create solutions that are simple, understandable and workable, and we strive to improve ourselves every day by working together and learning from one another – and from you. We will work together as a team, supporting each other, respecting every individual and drawing strength from our diversity.

## ▲ INNOVATIVE

▲ We are always stretching our boundaries and striving to achieve more for you. We make it our business to know what’s going on in the market and pushing our boundaries to respond proactively, and we do everything possible to understand what you really need and to craft innovative solutions. Our optimism about the future drives our ambition to offer you more.

## ▲ SERVICE

▲ We provide simple and transparent financial services which are most needed for small businesses and always strive for excellence in serving our internal and external customers, through professionalism, innovation and creativity. We are open-minded and embrace change in a globalized world. We want our clients to succeed and know they can count on IFL for the financial support they need.

## ▲ SUPPORTING ENTERPRISES AND INDIVIDUALS

▲ We want to work with entrepreneurs who are striving to grow their businesses no matter how small the business may be IFL seeks to help in building vibrant business communities that will drive the Country’s economy forward. We want to inspire our customers as well as help tomorrow’s entrepreneurs to achieve their ambitions.

## RESPECTED CORPORATE CITIZEN

Good citizenship is about doing business in a responsible way that recognizes our wider influence as a company. This contains information on how we manage our impacts on society, from our tax contributions, the way we govern our environmental, social and ethical risks and our environmental impacts. We commit to becoming a Financial Institution known for outstanding ethics and high quality governance, management and staff. Being a good corporate citizen also means playing a positive role in society and contributing financial and volunteering support to the communities we operate in.

## ▲ GOOD EMPLOYER

▲ Our people are uniting behind our purpose of serving our customers well. Our job is to make sure every aspect of what it means to work at IFL is geared towards helping them be successful in that. That kind of simplicity and focus is what drives employee engagement and what builds a really good company. We work to attract and retain the best people, promote flexibility and diversity in the workplace and undertake comprehensive activity to understand and respond to our employee’s feedback.

# Operational Highlights

## ▶ STRATEGIC PARTNERSHIP

In February 2020 Mahindra and Mahindra Financial Services Limited (MMFSL) invested LKR 1.1 Bn for a stake of 38.2% in IFL. The final tranche of the investment will increase the MMFSL holding to 58.2% in the 2021/22 financial year. During the financial year 2020/21 IFL commenced working closely with MMFSL in preparation for this final change.

## ▶ WORK FORCE HEALTH AND SAFETY

The safety of our work force was a priority during the year and all recommendations of the health authorities were fully implemented at all our branches, by issuing guidelines and releasing funds. We are pleased to report that the Company was certified as a Great Place To Work in 2020/21 as well.

## ▶ RETAINING OUR PROFIT TARGETS

Despite the emergence of a global pandemic, it was decided to retain the profitability targets set for the year and revise strategies to sustain profitability.

## ▶ EXPANSION ON TRACK

Despite the prevalent market uncertainty, we continued with our planned expansion drive for the year, by opening two new branches and relocating two branches. We expanded our workforce to 168 and also recruited a Head of Human Resources to manage our growing human capital base.

## ▶ MARKETING & BUSINESS DEVELOPMENT

A corporate rebranding project was initiated in preparation for the brand transformation in 2021/22. Business expansion was supported by aggressive BTL promotions for targeted segments at branch level, focusing on leasing, gold loans and fixed deposits. We also initiated digital marketing activities on selected products and regions.

## ▶ PUSHING ASSET GROWTH

Strategies were deployed to sustain asset growth despite market disruptions, while also maintaining asset quality.

## ▶ FOCUS ON COLLECTION

All staff were deployed towards a collection drive spearheaded through a Daily Collection Monitoring Team. Weekly collection meetings were held with all branches and monthly progress reports were submitted to the Board.

## ▶ MAINTAINING CREDIT QUALITY

Stringent lending criteria were observed with continuous monitoring of portfolios to maintain credit quality.

## ▶ MANAGING OUR FUNDING

Cost of funds was optimized by renegotiating rates and initiating more advantageous credit lines with banks and other lending agencies, while also executing a deposit mobilization campaign through the branch network.

# Our Journey Over the Years

## 2020/2021

Even under pandemic conditions, IFL recorded the highest net profit of LKR 184.4 Mn

2 new branches were opened in Vavuniya and Gampaha

Elpitiya and Kurunegala Branches were relocated

BB- (lka) rating from Fitch Rating in June 2020.

Awarded a Great Place To Work for the 2nd consecutive year

## 2019/2020

Increase in Customer Deposit Base

Against the backdrop of a global pandemic that caused both the global economy and the Sri Lankan economy to take a severe battering, I believe I am justified in claiming our performance has been extraordinary in terms of profitability and asset quality.

It is my great pleasure to present to our shareholders the annual report and audited accounts of Ideal Finance Limited (IFL), for the financial year 2020-21.

I am pleased to report to our shareholders that the financial year 2020-21 has been the best performing year of your Company to date, in spite of it being the most challenging year we have faced since inception. Against the backdrop of a global pandemic that caused both the global economy and the Sri Lankan economy to take a severe battering, I believe I am justified in claiming our performance has been extraordinary in terms of profitability and asset quality. We have journeyed-on, undaunted and undeterred by all challenges.

#### GLOBAL ECONOMY

Following the emergence of the COVID-19 pandemic, the global economy recorded its worst recession in decades in 2020. According to the World Economic Outlook (WEO) of the International Monetary Fund (IMF), released in April 2021, the global economy contracted by 3.3% in 2020, compared to a growth of 2.8% in 2019. Advanced economies were estimated to have contracted by 4.7%, while a contraction of 2.2% was estimated in relation to emerging markets and developing economies. Meanwhile, in China, where the COVID-19 pandemic originated, the economy recorded a growth of 2.3% in 2020. Unparalleled policy support on several fronts, including health, fiscal, monetary and social, facilitated an upturn in most economies towards the second half of 2020.

## Chairman's Message

Projections for global growth for 2021 has been revised upward by the IMF to 6.0%, reflecting a stronger-than-expected recovery from the pandemic. Advanced economies are projected to grow by 5.1% in 2021 with the United States projected to grow by 6.4% and the euro region is projected to pick up to 4.4% in 2021. Emerging markets and developing economies are projected to record a strong growth of 6.7% in 2021, with emerging and developing Asia, which contracted by 1.0% in 2020, expected to grow by 8.6% in 2021, driven by expected high growth of China and India.

### SRI LANKAN ECONOMY

Hard on the heels of the Easter Sunday attacks of 2019, the Sri Lankan economy had hardly any respite to recover, before the advent of the COVID-19 in 2020. Consequently, the GDP at constant market prices contracted by 3.6% in 2020, recording LKR 9,530.6 Bn, compared to the growth of 2.3% in 2019. The GDP per capita was estimated at LKR 683,106 (US dollars 3,682) in 2020, compared to LKR 688,573 (US dollars 3,852) in 2019. Agriculture activities recorded a contraction of 2.4% in 2020 in value added terms, compared to the growth of 1.0% in 2019, due to the considerable decline in some of the major agriculture activities, including fishing, growing of oleaginous fruits (including coconut), tea, forestry and logging, and animal production. Reflecting the adverse impacts of COVID-19 pandemic, mainly on construction, manufacturing, and mining and quarrying activities, industry activities contracted by 6.9% in 2020 in value added terms, compared to the growth of 2.6% in 2019.

**In spite of the economic downturn, we closed the year on a high note, by exceeding our financial targets with a 9% growth in total income which reached LKR 1,015 Mn.**

COVID-19 caused severe disturbances to mobility and tourism-related activities leading to an overall contraction in the services sector in 2020 by 1.5% in value added terms, against the growth of 2.2% in 2019. Tourist arrivals, which were affected by the Easter Sunday attacks in 2019, declined further by 73.5% in 2020 amidst the restrictions imposed on tourist arrivals to contain the spread of the pandemic. Transportation of goods and passengers, including warehousing activities, contracted by 6.7%, in comparison to the growth of 1.4% in 2019, mainly due to the COVID-19 related restrictions on mobility and the set back in the tourism industry. With the significant contraction in tourist arrivals, accommodation, food and beverage service activities contracted significantly by 39.4%, on top of the decline of 4.6% recorded in 2019. However, financial service activities and auxiliary financial services grew by 10.9% in 2020, compared to the growth of 2.0% recorded in 2019.

### THE NON-BANK FINANCE SECTOR

The non-bank financial sector in Sri Lanka contracted by 2.2% (LKR 31.0 Bn) reaching LKR 1,401.6 Bn compared to the 0.1% growth reported in 2019 as lending of the sector continued to slow down amidst COVID-19 lockdowns and curtailment of vehicle imports. Credit provided by the sector contracted by 5.7% to LKR 1,039.9 Bn compared to the contraction of 3.0% in the corresponding period of 2019. Against this backdrop, the net interest income declined by 5.3% to LKR 111.2 Bn and the net interest margin of the sector declined to 7.3% in 2020 from the 7.7% in 2019. The gross NPL ratio increased to 13.9% by end December 2020, from 10.6% reported as at end December 2019, showing a severe deterioration in the asset quality of the sector. The net NPL ratio also increased to 4.2% by end December 2020 from 3.4% reported at end December 2019. The sector profit after tax of LKR 13.7 Bn is a decline of 6.1% compared to the profit recorded in year 2019, mainly due to the significant decline in interest income recorded during the period.

## COMPANY PERFORMANCE

Against the above circumstances, IFL's performance is extremely encouraging in the context of our future plans, indicating the strong position of the Company and potential for enhanced performance in the future.

Economic conditions worsened in 2020, following the aftermath of the Easter Sunday attacks of 2019, with the imposition of COVID-19 containment measures, import restrictions, intensified competition due to interest rate cuts and the continued decline in the leasing and loan sectors. Within this unfavourable scenario, we anticipated a slower rate of growth than originally projected, as the Company's geographical expansion could not be executed as planned. Therefore, we emphasized prudent cash flow management, cost optimization and stringent risk monitoring to safeguard the Company assets. A major initiative during the year, was the launch of our digitization strategy, which is sure to generate multiple benefits for the Company in the coming years, in the form of cost and production efficiencies, service quality enhancements and product diversification. The safety of all our staff was given priority, while facilitating uninterrupted services to our

customers. I am pleased to report, that despite the economic uncertainty, we also continued to support suitable community welfare and social responsibility projects.

In spite of the economic downturn, we closed the year on a high note, by exceeding our financial targets with a 9% growth in total income which reached LKR 1,015 Mn. The total asset base has expanded by LKR 353 Mn, to reach LKR 5,520 Mn and we have achieved a remarkable 74% growth in profits totalling to LKR 184 Mn. We have also reduced our NPL levels against the previous year, while NPLs were increasing across the industry. The Credit rating improved to 'BB- watch positive' from 'B+ watch positive.'

However, it was the decision of the Board to withhold dividend payments in the current year in favour of reinvesting for growth and our shareholders will soon benefit from this long-term vision of the company.

### STRONG STEWARDSHIP

The highest standard of governance and compliance was maintained throughout the year, while continually monitoring all internal controls. Risk factors were closely monitored and risk appetites were

# 74%

Growth in Profits

# 9%

Growth in Total Income

redefined during the pandemic to enhance the risk management framework, with the Board, Board Committees, Sub Committees and Management Committees, actively participating in the continuous risk management process.

With Mahindra & Mahindra Financial Services Limited (MMFSL) joining as a majority shareholder with an equity contribution of LKR 1.1 Bn in February 2020, IFL commenced working closely with MMFSL during the 2020/21 financial year. MMFSL has nominated their directors as new directors on the IFL Board, while Mr Muffadaal Choonia has also been appointed as the MMFSL coordinator. However, these appointments are yet pending Central Bank approval, and the appointment of a CFO by MMFSL was also delayed due to COVID-19 disruptions.

## The two capital injections have already been completed with the second tranche of LKR 1.1 Bn invested in 2020.

## Chairman's Message

However, the MMFSL Coordinator was an active participant in Board Subcommittee meetings and operational level monthly meetings. The MMFSL Board nominees and the Coordinator were invitees at the monthly board meetings. In addition, a new Independent Non-Executive Director Ms. Chrisanthi L. Jayawardena was appointed to the Board, in compliance with regulatory requirements.

### FUTURE DIRECTION AND PLANS

As our shareholders are aware, IFL and MMFSL entered into a shareholder agreement in August 2019 initiating a new strategic direction for IFL. This equity partnership was structured with two capital infusions and a share purchase from existing shareholders. The two capital injections have already been completed with the second tranche of LKR 1.1 Bn invested in February 2020. Therefore, as at end-March 2021, MMFSL's share ownership amounts to 38.2% of the Company. The share purchase is scheduled for June-July 2021, which will make MMFSL the primary shareholder with ownership of 58.2% of the Company.

The strategy map to guide IFL's next phase of growth has already been initiated and will move into full swing in the new financial year, with 16 new branches coming on line, dramatically expanding the Company's physical reach. All arrangements are underway to expand our staff to drive this growth and we have already recruited a Head of Human Resources and have commenced reorganizing the organization structure for optimum human resource utilization.

The strategy map to guide IFL's next phase of growth has already been initiated and will move into full swing in the new financial year, with 16 new branches coming on line, dramatically expanding the Company's physical reach.

While pushing business volume growth across the board, we will place emphasis on high demand sectors such as gold loans, while improving service channels. The new IT system, which is a core banking solution for IFL, will dramatically enhance efficiencies of service delivery and productivity gains, and will enable IFL to embrace digital banking and fintech as an initiative to propel growth. The Company will also benefit from the new branding strategy with MMFSL's branding expertise. Therefore, the new financial year of 2021/22 is earmarked as one of the most eventful years in the Company's history and our customers and shareholders will benefit from this transformation within the short to medium term.

### ACKNOWLEDGEMENTS

After completing nearly a decade, I can proudly say that we have transformed ourselves from a LKR 400 Mn asset base, to a financial institution with a LKR 5.5 Bn asset

base, fulfilling all statutory requirements. We have also attracted and formed a major partnership with one of India's leading NBFCs, namely, MMFSL, whose total assets exceed a staggering US\$11 Bn. Looking back on the path we traveled, I have a sense of pride and confidence in our strong and diverse team, which is

capable of handling any challenge under the leadership of the CEO, as amply demonstrated during this financial year. I would like to thank our customers and other stakeholders for their continued faith in our capability and for helping us improve our processes to develop ourselves to this enviable position.

I also take this opportunity to thank our shareholders for their support and confidence in the company. I thank the Members of the Board, the Deputy Chairman, and Board Committees and the CEO, for their invaluable contributions in navigating the Company to its current successful conclusion during a universally difficult time. In this context, I would also like to formally acknowledge the supportive role of our internal and external auditors. I must also thank the Governor of the Central Bank and Officials of the Non-Bank Financial Institutions Supervision Division for their guidance during the year. I invite all our stakeholders to join us in our journey of growth that starts in the new financial year.

Sincerely,  
**Nalin J. Welgama**  
Chairman

15 April 2021

# Chief Executive Officer's Message

Duminda M. Weerasekare  
Director / CEO

## It is noteworthy that despite the hardships faced, IFL was once more designated a Great Place to Work.

While world trade and global economies were disrupted by a global pandemic, I am pleased to report steady progress of IFL's strategic vision during the financial year 2020/21. Against incredible headwinds that threatened to blow us off-course, we have remained firmly on course and journeyed-on as a team, striving together, towards our final objective.

The 2020/21 financial year was expected to have a strong start for IFL due to MMFSL's LKR 1.1 Bn investment in February 2020. This investment gave MMFSL a 38.2% stake of IFL and was

### LKR 1.1 Bn

MMFSL Investment

### 38.2%

MMFSL Stake in IFL

backed by a commitment to buy shares from the existing shareholders, to increase the MMFSL holding to 58.2% by January 2021. However, these plans were postponed following the unexpected emergence of the Covid-19 pandemic, and the financial year 2020/21 commenced in April 2020, on a much more unpredictable footing.

Given the global impact of the pandemic and wide-ranging risks to the Sri Lankan economy, IFL focused on the core values that had driven the Company's growth in the past 9 years, to sustain the Company in these uncertain times. These core principles of profitability, asset growth, credit quality and a work culture based on responsibility and integrity, were the keystones of our success during this unprecedented crisis.

#### IFL'S STRATEGIC RESPONSE

Following the sudden emergence of the global pandemic, the first step was to ensure the safety of all employees. All employees were given strict instructions to follow health guidelines and provided all necessary resources required to maintain a high level of compliance, thereby successfully avoiding infection of any IFL staff. To ensure business continuity under the new normal of Covid-19 restrictions, a work-from-home model was immediately deployed, with a vehicle pooling option for those who had to physically report to work. Continuous communications and work coordination were maintained across the Company through online meetings for staff, department heads and within departments. It is noteworthy that despite the hardships faced, IFL was once more designated a Great Place to Work.

## Chief Executive Officer's Message

It was decided to retain the profitability targets and devise strategies to sustain profitability coupled with a zero-based-budgeting strategy to optimize strategies to sustain cost conservation, starting with voluntary pay cuts for all managerial staff. However, the Company also gave employees two incentives during the year with a salary revision, to ensure the financial welfare of staff. The targeted cost containment measures generated excellent results with overall administration costs declining by 25%, while mobile phone bills were reduced by 50%. As interest rates started to decline rapidly, borrowing rates were renegotiated successfully, and new funding lines were initiated through investment banks and from institutional and high net worth investors, for a more competitive funding structure. With regards to safeguarding financial sustainability, managing collections and maintaining portfolio quality were targeted as crucial interventions. To sustain asset growth, the Company focused on more short-term lending products, such as gold loans and mobile phone loans for work and education.

### PERFORMING UNDER PANDEMIC CONDITIONS

IFL's range of quick and effective responses to the ground-level changes facilitated sustained growth in revenues and assets, while maintaining asset quality. Continuous market monitoring and close contact with customers made it possible to rapidly realign operations to meet changing customer needs with convenient and affordable solutions. Service quality was improved by setting up an in-house

## IFL's range of quick and effective responses to the ground-level changes facilitated sustained growth in revenues and assets, while maintaining asset quality.

call center for customer care and collections. While marketing and branding activities were restricted due to Covid-19 restrictions, below the line marketing activities at branches were continued wherever possible, thereby retaining brand visibility. Consequently, IFL's profitability and asset quality, exceeded expectations. The exception was assets under management, which faced extreme challenges to portfolio expansion due to restrictions on vehicle imports.

As new vehicle imports were restricted, leasing revenues were limited to

unregistered vehicles at car sales centers. Meanwhile, vehicle prices appreciated by as much as 50% and competition for the available vehicles intensified. Therefore, IFL focused on 3-wheeler leasing outside the Western Province, by re-launching the 3-wheeler product to sustain business growth in regional branches. This strategy was extremely successful and the segment enjoyed moderate growth.

The gold loan portfolio saw the highest year-on-year growth of 70% following the introduction of 1-month and less-than-1-month facilities, coupled with lower interest rates and service charges, in line with the lower interest rates. New financial products, such as mobile phone financing for work and education to salaried government employees, also contributed towards sustaining revenues.

Against the environment of travel restrictions, the branch network was reviewed to enhance customer accessibility, and the two branches of Kurunegala and Elpitiya were shifted to new locations. Two new branches were opened in Vavuniya and Gampaha. Despite the regional lockdowns and travel restrictions, all branches continued to

Gold Loans (LKR Mn)

**LKR 11 Mn**  
Lease & Loan Portfolio Increase

**76%**  
PBT Increase

remain profitable, with the exception of the two new branches, which are also on track to profitability in the new financial year.

While the entire industry experienced a sharp increase in NPLs, IFL is proud to report the opposite, despite the enhanced risk environment. All moratorium requests were responded to immediately, and constant communications were maintained with recipients of moratoria. A special training was given to frontline and call center staff to explain to customers the advantages and disadvantages of the moratorium. This resulted in many opting out of moratoria in place of customized repayment programs, which was beneficial to all parties. All moratorium customers were physically visited to ensure adequate capacities to sustain payments, and

in unviable situations assistance was provided to dispose the asset with no loss to the customer. A daily collection monitoring team was set up and weekly collection meetings were held with all branches. A monthly report was submitted to the board. Prompt decisions were taken in cases where probability of disputes was high. These proactive measures facilitated higher than expected collections. Within this prudent supervision framework, the Gross NPL ratio improved to 3.3% from 5.2% in the last year, while the Net NPL ratio improved to -0.40%, demonstrating the quality of financial management maintained at IFL during one of the most stressful years in history.

A key strategic initiative during the year, was the project with MMFSL to acquire next generation software and technology for IFL. Installation of a new, digital, core banking solution is already underway and will significantly contribute towards future growth targets.

With the expansion of 16 branches, the Company expects a growth of 27% in revenue and 42% in total asset growth.

With the final stage of the partnership with MMFSL on track for June-July 2021, we are upbeat and positive about the new financial year. The growth in capital base, coupled with funds from new funding lines, will place IFL in a sound financial footing to expand its physical reach. Already, 16 new branches have been earmarked in key strategic locations across the country. This growth drive will be backed by new, sophisticated digital systems that will enhance capacity, flexibility, speed and product development capabilities, enabling faster expansion and better service standards. The recruitment drive to attract key staff to drive the expansion plans is already underway.

The expansion plans are expected to meet higher profitability and ROA targets. We hope to simultaneously also improve our position in the Great Place to Work standards, thereby making IFL one of the most desired employers in Sri Lanka.

#### ACKNOWLEDGEMENTS

I extend my heartfelt appreciations to all our staff, for being responsible during the pandemic and would like to make a special mention of our managerial staff who accepted a voluntary salary cut during the onset of the pandemic in May and June 2020, and our Senior Management who motivated their teams to continue our journey with renewed vigor. The Chief Operations Officer, Rohitha Bandusena, was instrumental in maintaining credit quality during this unprecedented time and

## Chief Executive Officer's Message

Mr Choonia Muffadel, the Vice President, must be saluted for his contributions towards introducing new initiatives, while facilitating a smooth transition to introduce MMFSL's strengths into the IFL business model. I cannot forget the Chairman, who gave unwavering leadership to the IFL team for the past nine years and steered us safely and surely during all corporate thunderstorms. I also acknowledge the Deputy Chairman for being an inspiring coach and guide in developing the current business model and for extending unhesitant support whenever requested, during the past nine years. A Founder Director and a source of strength and guidance over the past nine years, Mr Viraj Malawana was another pillar of support. I also thank Dr Suren Peter, our Senior Independent Director, for the invaluable advice and value additions through the committees that he is heading and representing. I would like to express my sincere gratitude to the three

Founder Directors Mr. Nalin Weligama, Mr. Aravinda de Silva and Mr. Viraj Malawana for giving me the strength and confidence to develop IFL to its current level. I wish them well as they retire on completion of nine years as per CBSL corporate Governance Directions.

We face the new financial year with strength of purpose and determination to continue our journey against all odds.

Sincerely,  
**Duminda M. Weerasekare**  
Chief Executive Officer

15 April 2021

# Sustaining

Understanding the needs of all stakeholder groups enabled us to remain flexible and responsive to sustain long-term relationships based on mutual trust as we journey onwards.

# Our Team

Employees were given top priority during the year and the human capital of the Company was safeguarded both in terms of physical health and safety as well as financial security, to ensure the welfare of all employees amidst the unprecedented challenges experienced during the year. Despite the prevailing uncertain conditions and against the backdrop of layoffs and salary cuts, IFL viewed employees' financial stability as non-negotiable, and employees were granted two incentives (bonus payments) in December and March and a salary revision was executed in November. In fact, the current year records the highest ever incentive payment to employees.

The primary focus was to ensure the safety of the work force and all health and safety recommendations were implemented at all branches. To facilitate work from home, new laptops were made available to

back office staff at the head office, and employees were empowered to work from home under a roster scheme. All staff were provided private transport and were prohibited from using any public transport. Travel passes were obtained to allow staff to travel under recommended health protocols, without any security risk. Health Insurer approval was obtained to reimburse any private sector PCR tests. Insurance cover on critical illnesses was extended and a special reimbursement of hospitalization expense, which exceeds the cover value, was allocated on a selective basis for managers and lower category. These safety measures built confidence in the staff to engage themselves with a high level of commitment.

The high standard of employee welfare systems and facilities made available to IFL employees was independently recognized, with IFL once more qualifying as a Great Place to Work in 2020/21.

# Operating Context

## GLOBAL ECONOMY

According to International Monetary Fund's World Economic Outlook report of April 2021, the global economy contracted by an estimated 3.3% in 2020. Close to 95 Mn more people are estimated to have fallen below the threshold of extreme poverty in 2020 compared with pre-pandemic projections. Output losses have been particularly large for countries that rely on tourism and commodity exports and for those with limited policy space to respond. Many of these countries entered the crisis in a precarious fiscal situation and with less capacity to mount major health care policy responses or support livelihoods. The projected recovery follows a severe contraction that has had particularly adverse employment and earnings impacts on certain groups. Youth, women, workers with relatively lower educational attainment, and the informally employed have generally been hit hardest. Income inequality is likely to increase significantly because of the pandemic.

The global economy is projected to grow at 6% in 2021, moderating to 4.4% in 2022. Thanks to unprecedented policy response, the COVID-19 recession is likely to leave smaller scars than the 2008 global financial crisis. However, emerging market economies and low-income developing countries have been hit harder and are expected to suffer more significant medium-term losses

## SRI LANKAN ECONOMY

The Sri Lankan economy contracted by 3.6% in 2020, compared to the 2.3% growth recorded in the preceding year. During the second quarter of the year, growth contracted by 16.4% year-on-year, due to the nationwide lockdown measures but during the second half of the year, a real growth of 1.3%, was registered. All sectors of the economy contracted during 2020 with agriculture shrinking by 2.4%, industry by 6.9%, and services by 1.5%, compared to the previous year.

In the weak economic environment, maximum interest rates on deposits and debt instruments were further reduced since April 2020 with the objective of reducing interest rates on lending. Consequently, market deposit rates decreased and the Average Weighted New Deposit Rate (AWNDR) and the Average Weighted New Fixed Deposit Rate (AWNFR) recorded their lowest levels of 4.93% in December 2020. Meanwhile, the weekly Average Weighted Prime Lending Rate (AWPR) reduced to 5.81% by end 2020 and the Average Weighted New Lending Rate (AWNLR) and the Average Weighted Lending Rate (AWLR) declined to 8.38% and 10.29 %, respectively, by end 2020.

Credit extended to the private sector, which was significantly affected by the onset of the pandemic, recorded a gradual expansion since August 2020 supported by accommodative monetary conditions.

Accordingly, credit extended to the private sector increased by LKR 374.1 Bn during the year, recording a growth of 6.5%, year-on-year, by end 2020. The expansion of credit to the private sector in the second half of 2020 was mainly driven by Personal Loans and Advances, while direct credit to activities in the Agriculture, Industry and Services sectors of the economy remained low during the year. Growth of credit in the form of Personal Loans and Advances accelerated notably to 15.1%, year-on-year, by end 2020. Credit granted under Pawning Advances grew by 17.9%. However, Credit Card advances contracted by 2.5%, year-on-year, by end 2020, in comparison to the growth of 22.9% as at end 2019.

## NON-BANK FINANCIAL SECTOR

The Licensed Finance Companies (LFCs) and Specialized Leasing Companies (SLCs) sector performance deteriorated during the year, with negative credit growth and high NPLs. At end-2020, the sector comprised 40 LFCs and 3 SLCs. There were 1,517 branches and 460 other outlets of the sector, of which 1,001 branches (66.0%) were concentrated outside the Western Province.

During the year, assets of the sector contracted, recording a negative growth rate of 2.2% (LKR 31.0 Bn) reaching LKR 1,401.6 Bn compared to the 0.1% growth reported in 2019. Net interest income of the sector during the year was LKR 111.2 Bn, which was a decline of 5.3%

## Operating Context

(LKR 6.2 Bn) compared to 2019. This was due to the decline in economic activities with the COVID-19 outbreak. The interest income and interest expenses declined by 12.0% (LKR 31.3 Bn) and 17.6% (LKR 25.0 Bn), respectively. The net interest margin of the sector declined to 7.3% in 2020 from the 7.7% in 2019.

The loan loss provisions made against NPLs during the year was LKR 38.2 Bn, which was an increase of 26.4 % (LKR 8.0 Bn), when compared with the provision made in 2019. The gross NPL ratio increased to 13.9% by end December 2020 from 10.6% reported as at end December 2019, showing a severe deterioration in the asset quality of the sector. The net NPL ratio also increased to 4.2% by end December 2020 from 3.4% reported at end December 2019.

The sector posted a profit after tax of LKR 13.7 Bn, a decline of 6.1% compared to the profit recorded in year 2019, mainly due to the significant decline in interest income recorded during the period.

The Financial Sector Consolidation Master Plan (FSCMP) was introduced to address non-compliance with the minimum core capital requirement and/or the minimum capital adequacy ratios by several LFCs during the year. The sector core capital and total risk weighted capital ratios increased to 14.5% and 15.7%, respectively, by end December 2020 from the reported levels of 11.1% and 12.5% at end December 2019.

# Operational Excellence

The unprecedented challenges of an ongoing pandemic environment required unprecedented responses in order to retain sustainable business operations with the resilience to withstand macroeconomic and market stress elements. Cognizant of the risks, IFL adopted a range of counter measures to enhance operational productivity and efficiency that sustained competitiveness, while continuing undeterred on its charted expansion path. The key priority was to facilitate business continuity in an environment where employees could not report to work as per the working norms and customers could not physically visit service points. The next priority was to improve cost efficiencies across the operation.

## WORK FROM HOME MODEL

An effective work from home model was implemented rapidly, by providing laptops and dongals for employees, together with supervision and monitoring mechanisms, which made it possible for employees to continue working from home to achieve the set corporate targets, despite restrictions on travel and gatherings.

## COST CONTROLS

The customer for life philosophy was retained, fortified by stringent cashflow controls and focused approach towards decreasing the NPL ratio, against the previous financial year. Administrative

costs were reduced by 25% against the previous financial year through cost controls and concessions on rents, while the deployment of digital solutions for customers and employees contributed towards efficiency gains while containing costs. The cost of finance was contained by the process of renegotiating rates with banks and finance intermediaries.

## COVID-19 RELATED EXPENSES

Employee safety was given priority during the year and the Company invested in a wide range of safety measures for all employees, in addition to the safety protocols recommended by the national health authorities. The use of high-risk public transport was avoided by introducing vehicle sharing arrangements, and when this option was not possible, employees were authorized to work from home. In addition to the mandatory face masks and sanitizers, the company provided every employee and their family members with an immunity boosting herbal treatment. The following expenses were incurred by the company for the health and safety of employees.

COVID-19 Related Expenses (LKR)	2020/21
· Thermometers	164,500
· Surgical gloves	30,000
· Sanitizer cans	186,801
· Surgical masks	266,250
· Face shields for employees interacting with customers	13,750
· Herbal immunity boosters	480,025

## PRODUCTIVITY AND EFFICIENCY RATIOS

Despite the growth in employee base and establishment of new branches and additional health and safety related costs due to COVID-19 prevention, IFL has successfully maintained a steady improvement in key productivity and efficiency ratios, demonstrating the effectiveness of operational controls exerted during the year. The cost to income has shown significant improvement, while the profit per branch and profit per employees have also increased.

## Operational Excellence

	2020/21	2019/20
Cost to income ratio (Including taxes on financial services)	50.30%	64.70%
Cost to income ratio (Excluding taxes on financial services)	40.90%	52.10%
Revenue per employee (LKR Mn)	6.31	6.87
Profit per branch (LKR Mn)	15.00	10.54
Profit per employee (LKR Mn)	1.00	0.78

### CONTINUOUS EXPANSION

While maintaining prudent financial controls, IFL continued its strategic expansion drive by opening two new branches to extend its market reach. Two branches were relocated to more competitive locations. The expansion has facilitated access to a greater customer base and extended IFL's range of service delivery enabling faster and more convenient services for existing and potential customers, which effectively translates into a market advantage in the highly competitive financial services industry. Together with the physical infrastructure required to sustain the expansion drive, a Head of Human Resources was recruited to effectively deploy plans for growth of the workforce, and training and development of employees to equip IFL staff with the technical and soft skills required to drive business growth. The total staff cadre was increased to 168 during the year. Approval has been obtained from the Central Bank to open 16 additional branches in 2021 calendar year.

# Financial Review

The financial stability of the Company was enhanced in February 2020 by the LKR 1.1 Bn capital injection by MMFSL. However, the financial year 2020/21, took an unexpected turn with emergence of the COVID-19 pandemic which completely disrupted business activities planned for the year. Pandemic conditions were hitherto never before experienced in the country, and within the unpredictable environment that prevailed, strict financial management became crucial for survival.

Continually monitoring the market and market changes, the IFL Board and management decided to retain profitability targets set for the year. The strategic priority for the year, was to defend the bottomline by effecting cost savings, while simultaneously pushing business growth. Maintaining asset quality, cash flow monitoring and containing the NPL rates, were core concerns in managing this growth.

## FINANCIAL PERFORMANCE OVERVIEW

All managerial staff starting from the CEO, voluntarily halted all managerial perks and took pay cuts starting from 5% to 30%. The status quo was reinstated following the gradual return to normalcy. Extended working hours was replaced by controlled working hours, which was supported by the environment of low business volumes and the trend towards working from home. Fuel and phone bills were controlled according to official requirements. A 25% reduction in administration expenses was achieved through these operational adjustments. Overall, the Cost to Income ratio was improved to 40.9 % from 52.1% in the previous financial year.

Following policy rate reductions, cost of finance was renegotiated with banks and lenders and new credit lines were activated, which reduced the Company's average borrowing rate to 9.39%, from 12.71%. The strong brand image made it possible to attract fixed deposits at favorable rates. The interest income was improved through better lending rates and the interest yield was maintained at 19.4%, for a strong Net Interest Margin of 14.3%.

Specialized training was provided for frontline and call center staff to educate customers regarding the application of moratoria, and disadvantages and advantages of moratoria. This resulted in many customers opting out of moratoria in favor of customized repayment programs, which was beneficial to all parties. Collections were organized by communicating with customers and visiting them to collect, whenever requested. All customers under moratoria were visited regularly to ensure payments can be

## Financial Review

sustained. A Daily Collection Monitoring Team was set up by the Finance Division and weekly collection meetings were held with all branches. A monthly report was submitted to the Board. Prompt decisions were taken at higher level to facilitate this process. The NPL status was continually monitored to prevent deterioration, as industry NPL levels continued to rise.

The leasing and loan segments faced severe challenges during the year. However, IFL's flexible responses enabled strategic refocusing of revenues to sustain continues growth of these portfolios. Due to the embargo on vehicle imports, all vehicles appreciated in value by over 25% to 50% creating a bubble market and the new leasing market was limited to the unregistered vehicles at car sales centers. Consequently, this limited market became unviable, as finance companies and even banks began competing for market share. Therefore, IFL made a strategic choice to move to non-leasing markets. Instead, of the over crowded new vehicle market, IFL targeted registered vehicles, particularly 3-wheelers, outside the Western Province, as a majority of IFL branches are outside the Western Province. While this segment had its own share of challenges, the Company was able to sustain the portfolio by refocusing on the existing customer base and retaining a reasonable rate of return, while managing the LTV risk.

Demand for gold loans experienced a spike during the pandemic as consumers required urgent short-term financing due to income disruptions caused by COVID-19 containment measures.

IFL promptly responded to this emerging demand by taking gold loans services to a wider customer base and by enhancing the flexibility of its gold loan services. The Kurunegala and Elpitiya branches were relocated to more gold loan customer centric locations and two new branches in Vavuniya and Gampaha were opened to allow these communities access to gold loan facilities. These measures contributed towards the rapid growth of the gold loan portfolio.

A highlight of the year, was IFL's new loan scheme for the Sri Lankan Armed Forces personnel to facilitate smart phone purchases for their families, and to support online education activities for children of armed forces personnel. This product was extremely successful and gave the Company access to over 11,000 personnel. While growing this market, the Company has also commenced cross selling gold loans and 2-wheel and 3-wheel financing to this customer base.

### INCOME STATEMENT

#### Income

The Company's total income increased to LKR 1,015 Mn, which is a 9% year on year growth of LKR 88 Mn. This growth was achieved mainly through growth in the leasing and gold loan portfolios, while maintaining the average interest yield for an Interest Income increase of 10%, or LKR 88 Mn. The largest contribution was from gold loans, with this portfolio growing by 76% against the previous year. Interest income from investments in government securities, and fee and commission incomes also recorded growth.

Profits (LKR. Mn)

Assets (LKR Mn)

We closed the year with the PAT growing by a commendable LKR 78 Mn, which is increase of 74% year on year. The PAT of LKR 184 Mn recorded for the year is the best performance of the Company to date.

#### **Fund based operations**

The Company accumulated LKR 40 Mn from investments in government securities during the current financial year, as a part of the capital investment from MMFSL was invested in government securities to be used for future expansion. Another LKR 1 Mn was received from placements with banks and other financial institutions. These gains added to the interest income of the year.

Fee and commission income increased by 22% year on year to LKR 11 Mn.

#### **Impairment charges**

The impairment cost for the period came to LKR 89 Mn, with impairment costs for loans and other losses increasing by 176%, or LKR 57 Mn. To withstand the impact from the negative growth of the economy and to be more prudent with current pandemics situations, additional provisions

were maintained in the loan book. These precautions resulted in a -0.40% net NPL position as at the year end.

#### **Operating expenses**

Operating expenses were brought under strict controls during the year, which resulted in significant cost savings compared to the previous financial year. Total operating expenses came to LKR 310 Mn for the year, of which, LKR 194 Mn was on personnel expenses and LKR 62 Mn was on other operating expenses. Personnel expenses increased by LKR 26 Mn due to the increase in the number of employees from 133 to 168. However, the Company did not cut salaries in this difficult time, as all members of the team contributed to the great performance of the Company. Meanwhile, other operating expenses were well managed and reduced during the period by cutting down on expenses such as electricity, water and advertising.

#### **Profitability**

The PBT increased by 76%, or by LKR 124 Mn, to LKR 288 Mn buoyed by the growth in the Net Interest Margin of 14.3% and improved operating cost efficiencies.

The Income Tax charges also increased by 78%, or LKR 46 Mn, to LKR 105 Mn due to the effective tax rate increasing to 36.29%, from 35.78% in the previous year.

We closed the year with the PAT growing by a commendable LKR 78 Mn, which is increase of 74% year on year. The PAT of LKR 184 Mn recorded for the year is the best performance of the Company to date. Consequently, the Return On Assets improved from 3.53% pre-tax in the previous financial year to 5.40%, while post tax, it improved to 3.45% from 2.24% in the previous year. The Return on Equity - pre tax, improved from 9.54% to 11.95%, while post tax it improved from 6.06% to 7.64%.

#### **STATEMENT OF FINANCIAL POSITION**

##### **Assets**

The total assets of the Company increased to LKR 5,520 Mn, which is a 7% year on year growth of LKR 353 Mn. The total earning assets came to LKR 5,177 Mn, which is 94 % of the total asset base. Asset growth was driven by the growth in gold loans, leasing and loans. Investments in Government Securities reduced by 45% to LKR 502 Mn, from LKR 917 Mn Placements with banks and other financial institutions increased by LKR 188 Mn, to LKR 211 Mn.

## Financial Review

### Loans and advances

In spite of the widespread market disruptions and lower overall economic activity in the country, IFL managed to grow its lending portfolios during the year. The gross loans and advances value grew to LKR 4,614 Mn, from LKR 4,042 Mn, fueled by the growth in gold loans, leasing and other lending.

The gold loans portfolio grew by 76% to LKR 1,184 Mn and became the fastest growing product, as the growth rate of vehicle leasing slowed down, due to vehicle import restrictions. During the year, the gold loan portfolio was securitized with HNB and MPower capital, which enabled the growth of the portfolio. Even with the vehicle import restrictions, IFL's lease and loan portfolio expanded by LKR 11 Mn, to LKR 3,280 Mn.

# 76%

# LKR 930 Mn

Total Deposits with the Company

## The gold loans portfolio grew by 76% to LKR 1,184 Mn and became the fastest growing product.

### Asset quality

Although the finance company sector in Sri Lanka experienced a general deterioration in asset quality and expansion in NPLs during the year due to the pandemic and repeated moratoria, we are pleased to report that our asset quality recorded an improvement against our strong framework of stringent credit approval and monitoring. Credit quality was closely monitored throughout the year to manage credit risks during the weakened economic conditions of the year. The unrelenting focus on cash flows and close customer relationships made it possible to reigning-in, the NPL ratios, and the Gross NPL ratio improved to 3.3% from 5.2% from the last year. The Net NPL ratio meanwhile, improved to -0.40% as at the end of the year, due to the decision to allocate additional provisions in the loan book.

### Deposits

The well-coordinated, branch based deposit mobilization drive resulted in continuous growth of the deposit base. IFL's strong credit rating, personalized services and long standing customer relationships were other factors that attracted deposits.

The customer deposit base grew by 38% year on year, by LKR 258 Mn, as the public were willing to place their money in trustworthy and stable institutions during this time of uncertainty. As at the end of the year, total deposits with IFL came to LKR 930 Mn.

### Other liabilities

Mainly due to the increase in trade payables and accrued expenses, the Other Financial and Non-Financial Liabilities increased by LKR 68 Mn, or 35%, compared to the previous year, adding up to LKR 263 Mn.

### Capital

The total equity of the Company stood at LKR 2,505 Mn, as at end March 2021, which is an increase of 8% year on year. Following the first and second tranche of capital infusion in February 2020 by MMFSL, the Company complied with the LKR 2 Bn requirement for 1 January 2021.

A highlight of the year, was IFL's new loan scheme for the Sri Lankan Armed Forces personnel to facilitate smart phone purchases for their families, and to support online education activities for children of armed forces personnel. This product was extremely successful and gave the Company access to over 11,000 personnel.

The equity of the Company stood at LKR 2.5 Bn as at 31 March 2021, fulfilling the minimum capital requirement of the Central Bank as at 1 January 2022. The Tier 1 Capital Ratio was 43.47% against the minimum statutory requirement of 7%, while the Total Capital Ratio was 44.83% against the minimum statutory requirement of 11%, resulting in an exceptionally stable and well capitalized entity.

# Stakeholder Engagement

Our stakeholder engagement process has been developed to identify distinct stakeholder groups based on their specific characteristics and potential and actual impacts on the Company and company plans. A stakeholder assessment is conducted prior to developing different stakeholder communications strategies. The objective is to engage all key stakeholder groups in mutually beneficial relationships, which are also long term and sustainable.

Our primary stakeholder groups are:

Employees

Customers

Shareholders

Government

Society

IFL has in place, formal transparent policies to engage with each of the above stakeholder groups to facilitate regular communications and to accommodate stakeholder feedback.

Stakeholder Engagement Process

During the current financial year, we maintained close contact with all stakeholder groups, in order to respond to changes in stakeholder expectations during pandemic conditions. The flexible and responsive attitude of the Company have contributed towards building stronger relationships based on mutual understanding and trust, as we journey onwards.

# Customer Centricity

Since its inception, IFL's success has been linked to the high degree of customer centricity in service delivery and continuous improvements of service standards through ongoing evaluations of customer expectations and delivery standards. The current financial year was particularly significant in this context within the framework of sudden and extreme changes to daily lives of customers, following the emergence of COVID-19. Fully cognizant of the hardships experienced by its customer base the IFL team has extended itself to alleviate difficulties of customers through a prompt, considerate and humane service philosophy that endeavoured to assist the recovery and regeneration of their lives and livelihoods.

## CUSTOMER BASE GROWTH

IFL's primary customer segments are the SME sector and rural customers. During the year under review the customer base continued to expand despite economic unpredictability, indicating the high degree of public trust in IFL as a stable financial intuition.

### Deposit holders

The total deposit base increased from LKR 671.91 Mn to LKR 929.64 Mn during the 12 months under review, as a result of regular marketing and promotional activities. The deposit mobilization drive was strengthened with the addition of new staff to FD Departments in selected branches.

### Gold loan customers

The gold loan customer base has increased steadily due to personalized services and relationships.

உங்களது நட்பிற்கு  
எங்களின் பரிசு

இலே பூங்காவுக்கு  
அரசன் கிழிவாசன்

	As at 31 March 2020	As at 31 March 2021
Total portfolio (LKR)	672,715,396	1,183,764,064
Customer base (Nos)	6,908	8,513

### Leasing and loan customers

The COVID-19 pandemic restrictions on vehicle imports had an adversely impact on the leasing and loan market, which experienced lower demand. Nevertheless, IFL's loans and leases portfolio expanded by LKR 75 Mn from the previous financial year, based on the capital outstanding, with the number of customers also increasing.

	As at 31.03.2020	As at 31 March 2021
Total portfolio (LKR)	3,319,823,882	3,395,412,139
Customer base (Nos)	10,175	17,083

## SUPPORTING OUR CUSTOMERS DURING COVID DIFFICULTIES

The IFL team unhesitatingly stepped up to support our customers during the difficult times by providing prompt services to all customers to facilitate urgent financial transactions and responding to all customer inquiries and requests. In addition, all efforts were made to help customers in difficulty by extending repayment periods and providing other concessions.

Value added services were made available to retail fixed deposit holders and retail customers, such as transferring their monthly interest payments and withdrawals, to their accounts with no delays, even under pandemic operating conditions. In order to extend time to customers to repay their gold loans, IFL did not conduct auctions for 9 months on unpaid loans, and followed Central Bank (CBSL) guidelines in extending this grace period. With regards to lease and loan facilities, IFL followed CBSL guidelines and provided concessions to customers in the form of moratoria and by halting repossession of vehicles during the first wave and second wave of the pandemic. IFL also did not claim penalty charges on cheques that were returned and during March to September, overdue interest was waived.

Two moratoria were granted for the sectors of agriculture, construction, hotels and tourism, manufacturing, trading and transportation, that totaled to LKR 727.37 Mn in 920 facilities.

#### ANALYSIS OF MORATORIUMS GRANTED UNDER COVID-19, AS OF 31 MARCH 2021 (WAVE -1 AND 2)

Sector	Moratorium No 01		Moratorium No 2		Total

#### INVESTING IN CUSTOMER RELATIONSHIPS

During the year, IFL continued to emphasize close relationships with customers, based on mutual trust and understanding. IFL responded with flexible services and practical solutions that enhanced customer confidence in the Company and encouraged customer retention. IFL marketing officers are highly trained and have the skills to offer a discerning service to existing customers, through proactive responses to customer requirements. The long-term relationship strategy is mobilized through:

- ↘ Personalized services: Going one-step above the norm, IFL officers provide a door-step service where they will personally deliver FD certificates, mandates and cheques to customers.
- ↘ Continuous engagement with our customers
- ↘ Updating customers about the gold loan prices and lending rates
- ↘ Provide attractive lending facilities with flexible repayments

#### Prioritizing the customer experience

The customer experience at any contact point with a service provider, can make or break a customer relationship by contributing towards the formation of perceptions regarding the Company and its business ethics. Therefore, IFL prioritizes a positive customer experience for all customers whatever their socio economic background, at every point of contact. This objective is enforced by:

- ↘ Regular customer feedback: Customers are contacted for their feedback on services from staff
- ↘ Customer complaints handling: All customer inquiries and complaints are solved within the day and feedback is obtained from the customer.
- ↘ Call centre : A call centre has been established to enhance the quality of customer communications

# Marketing and Branding

The current financial year, was the pivotal point in the Company's historic journey where the IFL brand commenced transforming into a new brand identity . The rebranding process was initiated during the year and will be aggressively pursued in the new financial year facilitating the emergence of the stronger brand position.

Maintaining brand visibility is essential in the highly competitive financial services market and while pandemic related restrictions resulted in lower opportunities for traditional branding and marketing activities during the year, IFL conducted a number of successful marketing campaigns to promote products and services. Aggressive Below The Line promotions were continued on targeted segments at branch level focusing on leasing,

Gold Loans and fixed deposits. Several promotional events were conducted successfully, to raise awareness regarding IFL gold loans, special sales promotions for three wheelers and to mobilize fixed deposits. These included leaflet campaigns, sticker promotions, corrugated boards and also door-to-door promotions. The best gold loan customers were identified and rewarded with valuable phones and other promotional gifts.

## THREEWHEEL PROMOTIONS

## STICKER CAMPAIGNS

## LEAFLET CAMPAIGNS

# IT and Technology

## DIGITAL MARKETING AND BRANDING

In another strategic move, digital marketing activities were initiated for selected products and regions to capture the digital audience, which had expanded exponentially under pandemic conditions. The social media advertising spend was increased to maintain customer relationships by enabling continuous customer communications and engagement. The use of digital platforms makes it possible to identify important financial moments in the lives of customers and to respond to these needs. Facebook and SMS campaigns were leveraged to reach a wider audience. The digital marketing strategy will be expanded in 2021 with optimized advertising and online campaigns to fulfil customer needs.

As IFL approaches a key juncture in its journey through its strategic partnership, a new growth phase has been initiated based on modern digital technologies and cutting edge digital financial solutions. IFL's digital strategy has been designed to support the Company's expansion drive by enabling efficiency and cost gains, coupled with faster response times. As a long term strategy the Company will migrate to a new software platform, specialized for Non-Bank Finance Companies, which facilitates the provision of financial services in remote geographical locations, providing enhanced flexibility and a faster services. The system will also strengthen internal controls, while accommodating business volume expansion, and will generate benefits from technology integration for business synergies. The new platform will make it possible to offer value added services to customers and heighten competitiveness of the Company in the financial sector.

# Corporate Social Responsibility (CSR)

IFL remained staunchly committed towards its social obligations despite the economic concerns raised by the COVID-19 pandemic and continued to support worthy causes and community welfare initiatives, during the year. As a financial services provider with a strong social conscience, IFL's philosophy has been to reach beyond the provision of financial services to underserved communities and extend a helping hand for community welfare through corporate social responsibility projects.

In 2020, the focus of IFL's community initiatives was supporting education of children from under privileged communities, to assist these children overcome obstacles in continuing their education. Essential stationery items, school bags and other material were distributed to over 1,000 children from both rural and urban areas. IFL also responded to urgent safety needs in public transport during the COVID-19 pandemic by contributing towards the safety of 3-wheel passengers and drivers.

The ultimate objective of IFL's CSR projects, is to be sensitive to societal needs as a core component of the IFL business philosophy of 'Doing Well by Doing Good.'

## PIPENA KEKULU CSR PROGRAM

Working with schools and villages, this IFL CSR project provided face masks for the safety of school children in extremely rural parts of the country, as well as stationery and school use items, such as school bags, shoes, books, pens, pencils, white boards, lunch boxes and water bottles, through IFL branches.

Branch	School/Area	No. of Beneficiaries
Kurunegala	Ku/Sri Medhankara Vidyalaya , Edandawala	75 children

**ELPITIYA BRANCH**

**KANDY BRANCH**

**HELPING HANDS FOR EDUCATION PROJECT**

IFL branches celebrated their branch anniversaries by donating education-related items and food items to children of gold loan customers from low income families and to children in an orphanage. Given the hardships faced by low income families due to COVID-19 containment measures and livelihood losses, these contributions alleviated the burden of educational expenses from parents and helped children continue their education.

**HELPING HANDS FOR EDUCATION ACTIVITIES DONE DURING BRANCH ANNIVERSARIES (CSR) -JAFFNA BRANCH**

## Corporate Social Responsibility (CSR)

Branch	Date	No. of Beneficiaries
Matara (02nd Anniversary)	04 October 2020	Donated gift items to 35 children in an orphanage
Bandarawela (08th Anniversary)	13 November 2020	Donated grocery items to 15 low income families
Jaffna (07th Anniversary)	04 January 2021	Donated stationery items to more than 100 school children from low income families

### SAFETY PARTITIONS FOR 3-WHEELERS

The travel safety conditions during the COVID-19 outbreak required safety partitioning between 3-wheeler drivers and passengers. IFL responded immediately to this new public health and safety need by providing safety partitions to IFL 3-wheel customers, thereby contributing towards safe travel for both the public and 3-wheel drivers.

## Board of Directors

### NALIN J WELGAMA

Chairman

Nalin Jayaraj Welgama is a senior Accountant having managed a leading firm of Chartered Accountants in the United Kingdom for several years prior to embarking upon an entrepreneurial function as founder Chairman of Ideal Group. He conceptualized and founded Ideal Plant and Vehicles Ltd UK in 1986, a company engaged in the worldwide export of luxury motor vehicles and contractor plant and machinery from the UK.

In 1996, with the formation of Ideal Automotive parts (Pvt) Ltd., the seeds were sewn for the establishment of the Group which at present comprises of 20 companies, each of which are playing a lead role in their respective business segments. The Group has diversified into passenger cars, commercial vehicles, heavy machinery, motor cycles, import and distribution of tyres, financial services, automotive parts and renewable energy, constituting a combined turnover in excess of LKR 20 Bn annually employing over one thousand people.

He was able to realize his dream of launching the first Sri Lankan company to partner a world renowned automobile giant in setting up a fully-fledged auto assembly plant which was launched in August 2019. Thus, Mahindra Ideal Lanka Private Ltd, was mooted to offer a selection of locally assembled vehicles to the Sri Lankan market.

Nalin J. Welgama is the youngest son of the renowned philanthropist entrepreneur S A Welgama whose name is synonymous with road haulage (transport) in Sri Lanka, a company whose origins date back to 1931.

### ARAVINDA DE SILVA

Deputy Chairman

An all-time legend on the cricket field, Aravinda De Silva is the only cricketer in the world to have scored a century and taken three wickets at a Cricket World Cup. This was in 1996. He is currently an Advisor to Sri Lanka Cricket.

He retired at the pinnacle of his career in 2003 and infused the combination of his passion for automobiles and keen acumen in cricket to establish and become co-partner of the Ideal Group of Companies in 2005. The success of the Group has been phenomenal with the Group venturing into numerous business sectors including automotive vehicles and tyres, green energy solutions, finance and real estate. The Group represents a global giant in automotives, Mahindra & Mahindra.

His experience as a business strategist in Mergers & Acquisitions and as a venture capital investor in tech start-ups is renowned.

In 2017, he was appointed Chairman of Thomas Cook Lanka (Pvt) Ltd, a fully owned subsidiary of Thomas Cook (India) Ltd, an investment by Fairbridge Capital Canada, which is a strategic investor in Fairfirst Insurance and Nations Trust Bank, Sri Lanka.

### DUMINDA WEERASEKARE

Director/CEO

With an expansive knowledge, skill and experience garnered over three decades, he holds the distinction of being a Fellow of both the Institute of Chartered Accountants of Sri Lanka and Chartered Institute of Management Accountants of UK.

He has functioned in directorial, CEO and COO positions in a number of leading corporate entities. His work experience ranges from negotiating and sourcing funding from international funding organizations and agencies, to introducing pioneering funding sources into the country and being commissioned by international agencies to develop strategic plans for development in various financial strata and sectors.

He was conferred a Fellowship by the Netherlands Development Bank.

### **VIRAJ MALAWANA**

Non – Executive Director

With a lengthy career spanning decades in the financial services industry, Viraj Malawana has held senior positions at the Colombo Stock Exchange and Brunei Stock Exchange, HSBC and Standard Chartered Bank Priority Banking and is credited for structuring and creating novel investment instruments customized specifically for foreign investors into Sri Lanka. He later founded New World Securities Pvt. Ltd, a trading member of the Colombo Stock Exchange and served as its Chief Executive Officer.

He is currently the Managing Director of NWS Holdings Group of Companies, while also being on the Boards of Bansei Royal Resorts Hikkaduwa PLC, Strategic Business Innovator Pvt. Ltd (a subsidiary of SBI Japan), Veritas Holdings Pvt. Ltd, Sushi Bar Samurai Pvt. Ltd, Aspen Hills Capital Inc. and SB Restaurants Pvt. Ltd, a partner company of Jetwing Hotels Ltd. He was also a former Director of Wealthtrust Securities Ltd, a registered Primary Dealer under the Central Bank of Sri Lanka and former Chairman of Bansei Securities Capital Pvt. Ltd, a licensed Margin Provider, where he currently serves as a Consultant.

He previously served as a Member of the Advisory Committee to the Ministry of Tourism, specializing in the Japanese tourist segment.

### **DR SUREN PETER**

Senior Independent Non-Executive Director

Conferred a doctorate from the Maastricht School of Management (MSM) in the Netherlands, he is a Fulbright Scholar and holds a M.Sc in Management from Georgia Institute of Technology USA and a Master of Philosophy from MSM. His Bachelors was in Industrial Management from the University of Kelaniya Sri Lanka.

As a university academic, he has over 25 years' experience in teaching, research and consulting, and is currently serving as the Head of Department of Industrial Management at the University of Kelaniya. He has been the national consultant on numerous projects for UNIDO and UNDP and consulted for several international development organisations, state and private sector entities. He serves as a national reviewer for university degree programmes, and also serves on the Board of a few private companies as well.

### **CHRISHANTHI JAYAWARDENA**

Independent Non Executive Director

Chrisanthi Jayawardena is an Attorney at Law and currently serves as the legal consultant in a large public sector organization. She has wide and varied experience in the application of corporate law and in the management of corporate services in the financial services industry. Following her early career at the F J & G de Saram, a top law firm in Sri Lanka, she served at the NDB Bank for nearly two decades as its head of legal and the Company Secretary and thereafter was the Bank's Chief Operating Officer (Services). She served as a Board Director in several companies in the financial services sector and presently is a director of a stated-owned company as well.

She possesses over nine years' experience in Finance and Auditing, combined with extensive knowledge in Financial Reporting, Taxation, Treasury & Risk Management and Auditing & Assurance.

Prior to joining Ideal Finance Limited, she was the Supervisor - Assurance at EY, which fueled a sound knowledge in the banking and finance sectors in Sri Lanka.

### CHARITHA VITHANA

Manager Finance

With over twelve years' experience in the financial services sector and three years in auditing, he is an Associate Member of the Institute of Chartered Accountants of Sri Lanka. He also holds a BSc Special Degree in Accounting from the University of Sri Jayawardenepura and is an Associate Chartered Professional Manager (ACPM) of the Institute of Chartered Professional Managers of Sri Lanka.

Prior to joining Ideal Finance Limited, he was an Accountant at AMW Capital Leasing and Finance PLC, the Senior in Charge at Amerasekera & Company and also worked at KPMG.

# Corporate Governance Report

## CORPORATE GOVERNANCE

Corporate Governance is the system of law, rules, practices and processes by which a company is directed and controlled. It focuses on internal and external corporate structures to monitor the actions of management and directors and thereby mitigate agency risks which may stem from the misdeeds or offences of corporate officers.

The Board of Directors is responsible for the governance of the Company, placing significant prominence on developing corporate governance rules, structures, policies and processes to ensure integrity and transparency in all Company dealings. Keeping this in focus, the Board optimizes all efforts to achieve performance and quality profits. IFL has continuously refined its corporate governance structure and systems to ensure compliance at all times, being aware of accountability and transparency to stakeholders and the public.

This statement describes the application of Corporate Governance practices implemented within the Company during the year under review.

## BOARD OF DIRECTORS

The Board is the apex body of Ideal Finance Limited tasked with the responsibility of directing the Company. The overarching responsibilities of the Board includes making an accurate

assessment of the Company's position, strategic decisions, holding regular meetings of the Board and Board Sub Committees, ensuring good governance and overseeing the risk management of the Company.

## COMPOSITION AND INDEPENDENCE

The Board comprises of six (06) members, five (05) of whom, including the Chairman, are Non-Executive Directors with the balance of skills and experience appropriate for the business carried out by the Company.

The Board has determined that two (02) Non-Executive Directors, namely, Dr. P.L Suren Peter & Chrisanithi Jayawardena are 'Independent'.

## CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The functions of the Chairman and the Chief Executive Officer are distinctly separate, with a clear distinction drawn between responsibilities to ensure a balance of power and authority.

Nalin J Welgama is the Chairman of the Board of Directors and Duminda M Weerasekare is the Chief Executive Officer of the Company.

## TENURE, RETIREMENT AND RE-ELECTION OF DIRECTORS

There is a formal, considered and transparent procedure for the appointment of new Directors to the Board.

If a director resigns or is removed from office, the Board announces this resignation or removal to the shareholders. In addition, the Director of the Department of Supervision of Non-Bank Financial Institutions of the Central Bank of Sri Lanka is notified, detailing the reasons for such removal or resignation.

The provisions of the Company's Articles of Association also require Directors appointed by the Board to hold office until the next Annual General Meeting and seek appointment by the shareholders at such a meeting.

## BOARD MEETINGS

The results of the Company are regularly considered and monitored against the budgets at Board meetings. A standard agenda is discussed together with any other matters requiring the attention of the Board.

The Board meets once a month and wherever necessary, special meetings of the Board are held.

During the year ended 31 March 2021, twelve (12) meetings of the Board were held.

Name of Director	Executive/ Non- Executive/ Independent Non- Executive	Attendance
N J Welgama	Non-Executive	12/12
D M Weerasekare	Executive	12/12
P A De Silva	Non-Executive	12/12
J V W Malawana	Non-Executive	12/12
Dr. P L S Peter	Senior Independent Non- Executive	12/12
Chrishanthi Jayawardena	Independent Non-Executive	2/12

#### BOARD SUB-COMMITTEES

An Audit Committee, Integrated Risk Management Committee, Remuneration Committee, Nomination Committee and an IT Steering Committee function as Sub-Committees of the Board. The names of the Directors who serve on the said Committees are mentioned in the sections pertaining to the relevant committees.

#### AUDIT COMMITTEE

The Audit Committee currently comprises J.V.W. Malawana, Dr. Suren Peter and Chrishanthi Jayawardena. It is chaired by the Chairman Nalin Welgama.

In compliance with the Finance Companies (Corporate Governance) Direction No. 3 of 2008 and in the absence of a Head of Internal Audit, the Company Secretary acts as Secretary to the Audit Committee.

#### INTEGRATED RISK MANAGEMENT COMMITTEE (IRMC)

The Committee is chaired by Independent Non-Executive Director Dr. Suren Peter and comprises Aravinda De Silva, Viraj Malawana and Chrishanthi Jayawardena as member. The IRMC also consists of key management personnel who supervise broad risk categories.

#### REMUNERATION COMMITTEE

The Remuneration Committee is chaired by Chairman Nalin Welgama and has Aravinda De Silva as a member.

#### NOMINATION COMMITTEE

The Nomination Committee was formed in March 2014 and comprises Dr. Suren Peter, while Aravinda De Silva chairs the Committee.

#### IT STEERING COMMITTEE

IT Steering Committee was formed in March 2014. It is chaired by Dr. Suren Peter, while Viraj Malawana and Aravinda De Silva are members of the Committee.

#### COMPLIANCE OFFICER

The Company appointed a Compliance Officer to ensure compliance with the regulatory and statutory requirements and the laws and regulations governing Finance Companies, Public Listed Companies and business activities undertaken by the Company in general.

#### THE MANAGEMENT

The day-to-day operations of the Company are entrusted to the corporate and senior Management headed by the Chief Executive Officer. They ensure that risks, uncertainties and opportunities are identified and necessary action is taken to mitigate risk exposure, thus ensuring the achievement of targets within defined time frames and budgets.

#### FINANCIAL DISCLOSURES AND TRANSPARENCY

Financial Statements are prepared in accordance with the Sri Lanka Accounting Standards, International Financial Reporting Standards, the Companies Act, the Finance Companies Act and the directions and rules issued there under.

# Corporate Governance Report

Messrs. Ernst & Young, Chartered Accountants are the External Auditors of the Company. The Auditors are allowed to act independently and without intervention from the Management or the Board of Directors, to express an opinion on the financial statements of the Company. The Auditors are provided with all required information for examination.

## ETHICAL STANDARDS

IFL requires all employees maintain the highest standards of integrity in the performance of their duties and dealings on behalf of the Company.

The Company focuses on training and career development of its employees for the creation of an empowered and committed group of employees.

## STATUTORY PAYMENTS

All statutory payments due to the Government, which have fallen due, have been made or where relevant provided for.

Retirement gratuities have been provided for in accordance with Sri Lanka Accounting Standards No. 16, Employee Benefits (Revised 2006).

## COMPLIANCE WITH CENTRAL BANK REGULATIONS

As both a Registered Finance Company and a Registered Finance Leasing establishment, the Company is governed by the Non-Bank Financial Institutions Directions & Rules issued by the Monetary Board of the Central Bank of Sri Lanka.

Accordingly, the Company is required to carry out and maintain business activities in compliance with the directions issued by the Central Bank of Sri Lanka from time to time.

## ACCOUNTABILITY AND DISCLOSURE

The members of the Board of Directors have reviewed the Financial Statements contained in this report in detail, in order to satisfy themselves that these statements present a true and fair view of the Company's affairs.

## OUTLOOK

Corporate governance plays a vital role in business. Our future emphasis is to further satisfy the Company's stakeholders whilst sustaining the growth of the Company. Therefore, by implementing a broad operating structure, monitoring internal controls, benchmarking and ensuring effective and transparent communication, our corporate governance will continue to demonstrate and display stringent adherence to compliance in the rule of law, ethical diktats and sustainable business practices.

Nalin J Welgama  
Chairman

15 April 2021

As the prudential regulator, the CBSL has issued a set of Directions on Corporate Governance – The Finance Companies ( Corporate Governance) Direction, No. 3 of 2008 to promote prudent business behavior and risk management on the part of Regulated Financial Institutions such as banks and finance companies and insurance companies, so that these institutions are poised to meet their financial promises.

The Code of Best Practice on Corporate Governance issued by the Institute of Chartered Accountants of Sri Lanka (ICASL) covers the key aspects such as Directors, Directors' remuneration, Relations with Shareholders, Accountability and Audit and Shareholders.

These rules are indispensable in ensuring the creation and maintenance the confidence of the General Public of the country. The Company's compliance with relevant directions, rules, notices, guidelines and codes are shown below.

Section	Agreed Upon Procedure	Status	Result of Procedure

(ii)	The implementation of the Central Bank guidelines issued to Auditors from time to time;		Committee has made recommendations on matters in connection with the application of accounting standards as and when required.
(iii)	The application of the relevant accounting standards; and		

Section	Agreed Upon Procedure	Status	Result of Procedure
(d)	The service period, audit fee and any resignation or dismissal of the Auditor; provided that the engagement of the Audit Partner shall not exceed five years, and that the particular Audit Partner is not re-engaged for the audit before the expiry of three years from the date of the completion of the previous term.	<b>Complied</b>	Board approved the re-appointment of Auditors and the audit fee with regard to the current financial year
(e)	The committee shall review and monitor the External Auditor's independence and objectivity and the effectiveness of the audit processes in accordance with applicable standards and best practices.	<b>Complied</b>	External Auditor is independent since they directly report to the Board Audit Committee and their Report on the financial statements of the company for the year 2020/21 indicates that the audit is carried out in accordance with SLAuS.
(f)	The Committee shall develop and implement a policy on the engagement of an External Auditor to provide non-audit services that are permitted under the relevant statutes, regulations, requirements and guidelines. In doing so, the Committee shall ensure that the provision by an External Auditor of non-audit services does not impair the External Auditor's independence or objectivity. When assessing the external auditor's independence or objectivity in relation to the provision of non-audit services, the Committee shall consider:	<b>Complied</b>	Board approved the policy on engagement of an external auditor to provide non-audit services.
(i)	Whether the skills and experience of the audit firm make it a suitable provider of the non-audit services		
(ii)	Whether there are safeguards in place to ensure that there is no threat to the objectivity and/or independence in the conduct of the audit resulting from the provision of such services by the External Auditor; and		
(iii)	Whether the nature of the non-audit services, the related fee levels and the fee levels individually and in aggregate relative to the audit firm, pose any threat to the objectivity and/or independence of the External Auditor		

# Corporate Governance Report

Section	Agreed Upon Procedure	Status	Result of Procedure
(g)	The Committee shall, before the audit commences, discuss and finalise with the External Auditors the nature and scope of the audit, including:		
(i)	An assessment of the Finance Company's compliance with the relevant Directions in relation to corporate governance and the management's internal controls over financial reporting;	<b>Complied</b>	Committee has developed a mechanism to meet the auditors before commencing the audit to inquire about the nature and scope of the audit, with the external auditors in accordance with SLAuS.
(ii)	The preparation of financial statements for external purposes in accordance with relevant accounting principles and reporting obligations; and	<b>Complied</b>	BAC has discussed the preparation of financial statements in accordance with relevant accounting principles.
(iii)	The co-ordination between firms where more than one audit firm is involved.	<b>N/A</b>	
(h)	The Committee shall review the financial information of the Finance Company, in order to monitor the integrity of the financial statements of the Finance Company, its Annual Report, accounts and quarterly reports prepared for disclosure, and the significant financial reporting judgments	<b>Complied</b>	Committee has a process to review the financial information of the company.
(i)	Major judgemental areas;		
(ii)	Any changes in accounting policies and practices;		
(iii)	Significant adjustments arising from the audit		
(iv)	The going concern assumption; and		
(v)	The compliance with relevant accounting standards and other legal requirements.		
(i)	The Committee shall discuss issues, problems and reservations arising from the interim and final audits, and any matters the Auditor may wish to discuss including those matters that may need to be discussed in the absence of Key Management Personnel, if necessary.	<b>Complied</b>	Committee has met the external auditors during the year at committee meeting in the absence of the executive management.
(j)	The Committee shall review the External Auditor's management letter and the management's response thereto.	<b>Complied</b>	Committee has reviewed the external auditor's management letter for the year end 31 March 2020 and the management's response thereto. Management letter for the year ended 31 March 2021 will be reviewed upon receipt of the same.

Section	Agreed Upon Procedure	Status	Result of Procedure
(k)	Committee shall take the following steps with regard to the internal audit function of the Finance Company		
(i)	Review the adequacy of the scope, functions and resources of the Internal Audit Department, and satisfy itself that the department has the necessary authority to carry out its work.	<b>Complied</b>	Internal audit function of the company has been outsourced to a firm of Chartered Accountants and their scope of the audit has been included in their audit reports. Internal Audit Reports have been submitted to the Audit Committee for their review.
(ii)	Reviewed the resources of the internal audit department, and satisfy itself that the department has the necessary resources to carry out its work;	<b>N/A</b>	Not relevant as Internal audit function of the company has been outsourced to a firm of Chartered Accountants.
(iii)	Review the internal audit program and results of the internal audit process and, where necessary, ensure that appropriate actions are taken on the recommendations of the Internal Audit Department.	<b>Complied</b>	Audit Committee has reviewed the internal audit program and the audit reports were reviewed and discussed thereon.
(iv)	Review any appraisal or assessment of the performance of the head and senior staff members of the Internal Audit Department;	<b>N/A</b>	Not relevant as Internal audit function of the company has been outsourced to a firm of Chartered Accountants.
(v)	Recommend any appointment or termination of the head, senior staff members and outsourced service providers to the internal audit function	<b>N/A</b>	Not relevant as Internal audit function of the company has been outsourced to a firm of Chartered Accountants.
(vi)	Ensure that the Committee is appraised of resignations of senior staff members of the Internal Audit Department including the Chief Internal Auditor and any outsourced service providers, and to provide an opportunity to the resigning senior staff members and outsourced service providers to submit reasons for resigning;	<b>N/A</b>	Not relevant as Internal audit function of the company has been outsourced to a firm of Chartered Accountants
(vii)	Ensure that the internal audit function is independent of the activities it audits and that it is performed with impartiality, proficiency and due professional care;	<b>Complied</b>	Internal audit function is independent since Internal audit function is outsourced and report directly to the Board Audit Committee and also performed with impartiality, proficiency and due professional care.
(viii)	Ensure that a process has been documented which addresses that the audit work has been performed with impartiality, proficiency and due professional care.	<b>Complied</b>	Documented process in the Internal audit charter approved by the Board.

## Corporate Governance Report

Section	Agreed Upon Procedure	Status	Result of Procedure

Section	Agreed Upon Procedure	Status	Result of Procedure
(h)	A statement of the regulatory and supervisory concerns on lapses in the Finance Company's risk management, or non-compliance with the Act, and rules and directions that have been communicated by the Director of the Department of Supervision of Non-Bank Financial Institutions, if so directed by the Monetary board to be disclosed to the public, together with the measures taken by the finance company to address such concerns.	Complied	Such a situation has not arisen.
	Check that the board has obtained the external auditor's certification of the compliance with the Corporate Governance directions issued by the Monetary Board in the annual corporate governance reports published after 1 January 2011.	Complied	External auditors have issued the Corporate Governance Factual Finding report in this regard.
11	<b>Disclosures</b>		
	Check that the board has obtained the external auditor's report on the effectiveness of the internal control mechanism referred in 10(2) (b) above.	Complied	Board has obtained the external auditor's report on the effectiveness of the internal control mechanism and disclosed in Directors' responsibility statement on internal control over financial reporting and disclosed on pages 90 and 91 of the Annual Report.

# Report of the Audit Committee

## COMPOSITION

Mr. Nalin J. Welgama (Chairman/Non-Executive Director)\*

Dr. Suren Peter (Senior Independent Non-Executive Director)

Mr. J.V.W. Malawana (Non-Executive Director)

Ms. Chrishanthi L Jayawardena (Independent Non-Executive Director)

\*The Chairman Nalin J. Welgama, is a Member of the Association of Chartered Certified Accountants of the United Kingdom and has over 30 years' experience in auditing and accounting, and the international automotive industry

## MEETINGS

The Committee met five times during the year under review.

The Chief Executive Officer and the Senior Management attended meetings by invitation. Internal audit consultants and the external auditors were invited to participate at meetings as and when required.

Company Secretaries S S P Corporate Services (Private) Limited also functioned as Secretaries to the Audit Committee.

All proceedings were regularly reported to the Board of Directors.

## ATTENDANCE

Mr. Nalin J Welgama (Chairman) 5/5

Dr. Suren Peter (Director) 5/5

Mr. J.V.W Malawana (Director) 5/5

Ms. Chrishanthi L Jayawardena (Director)\*

\*No meetings were held after Ms Jayawardena's appointment in February 2021

## ROLE OF THE COMMITTEE

The main objective of the Audit Committee is to assist the Board of Directors in fulfilling its oversight responsibilities in the financial reporting process, the system of internal controls and risk management, the independence and audit process of the external auditors and the process for monitoring compliance with laws and regulations.

## SUMMARY OF ACTIVITIES

Reviewed the consistency and appropriateness of accounting policies adopted by the Company to ensure compliance with the Sri Lanka Accounting Standards

Reviewed the effectiveness of the internal financial controls to ensure reasonable assurance that the financial reporting system adopted by the Company can be relied upon in the preparation and presentation of the quarterly and annual financial statements

Considered the internal and external audit reports and identified the control weaknesses and accounting issues highlighted; directed management to take appropriate and relevant follow up action

held two special meetings with the external auditors without the presence of management to discuss matters relating to management co-operation, quality, timeliness and accuracy of the accounting and management information provided

## INTERNAL AUDIT

The Internal Audit function is outsourced to BDO Partners, Chartered Accountants.

The scope of work covers the head office functions and all branches. The scope of work of the internal audit consultants includes the review of the efficacy of internal controls and actions taken to mitigate operational and business risks. In addition, monitor and report on compliance with statutory requirements and the Company's accounting and operational policies. Internal audit representatives are present at all Audit Committee meetings during discussion of the respective internal audit reports.

## EXTERNAL AUDIT

The Committee ensured that the Auditors have not carried out any non-audit services that would have impaired their independence.

The Audit Committee has recommended to the Board of Directors that Messrs. Ernst & Young be reappointed as Auditors for the financial year ending 31 March 2021 subject to the approval of the shareholders at the Annual General Meeting. The Committee has also made its recommendations with regard to the remuneration of the Auditors.

### **RISK MANAGEMENT**

In terms of the Central Bank's Direction No. 3 of 2008 under the Finance Companies Act, the Company has appointed an Integrated Risk Management Committee during the year.

The Committee's decree is to identify the business and operational risks the Company is exposed to and develop appropriate strategies to manage and monitor these risks and thereby eliminate/mitigate any adverse impacts.

### **CONCLUSION**

The Audit Committee is satisfied that the internal controls and the procedure established for assessing and managing risk are adequately designed and operate effectively and is of the view that it provides reasonable assurance that the Company's assets are safe guarded, and that the financial statements are reliable.

Nalin J. Welgama  
Chairman  
Audit Committee

# Risk Management Report

## INTRODUCTION

Ideal Finance Limited (IFL) works in the space of being a financial services provider offering an expansive range of financial products including leases, loans, fixed deposits, gold loans and mortgage loans. The Company's expansion plans also revolves on extending its branch network for more accessibility.

The IFL Board of Directors remains very proactive in the Company's risk management, with expansive risk mitigation strategies introduced and implemented to ensure that operations are at its optimum while financial and business risks are minimised.

The Integrated Risk Management Committee (IRMC) is a Board appointed committee which meets quarterly to discuss and evaluate the prevalent risk management procedures and risk levels being faced by the company at present and in the future. The integrated risk management report presented to the IRMC and committee analyses and evaluates the adequacy and efficacy of the current risk mitigation strategies in place.

This is an imperative at IFL as we remain aware that an effective risk management strategy will flag risks pertaining to the Company and evaluate these at its early stages in order to implement necessary measures to mitigate or minimise the risks impact.

## RISK MANAGEMENT PROCESS

Managing risk is a multi-stage process as seen below.

The Risk Identification process involves identifying all risk categories and sub categories the business is exposed to. In the event of changes to the business environment or new products to be introduced, all risks must be identified. If IFL plans on introducing a new product to the market, all inherent risks are identified to minimise and avoid unexpected and adverse outcomes being faced.

Once risks are identified, these are analysed and evaluated using both quantitative and qualitative techniques. Based on these findings, necessary action is taken to manage risk and reduce impact of risk occurrence.

These are then monitored to avoid accumulation of risk. Findings are reported to the Board through IRMC.

## KEY RISKS FACED BY THE COMPANY

Due to the nature of our business and resulting from the macro-economic environment which poses a majority of the inherent risks, the Company is exposed to the following risks:

- ⌵ Credit risk/Default risk
- ⌵ Liquidity risk
- ⌵ Interest rate risk
- ⌵ Currency risk
- ⌵ Collateral risk
- ⌵ Strategic risk
- ⌵ Operational risk
- ⌵ Regulatory risk
- ⌵ Reputational risk

### CREDIT RISK

Credit risk is the major risk the Company is exposed to and can be categorised mainly into two - default risk and concentration risk.

### DEFAULT RISK

Default risk is the risk arising due to customers being unable to meet their debt obligations. The company has well-defined credit procedures to mitigate the default risk in daily business operations which includes credit appraisal, credit approval, monitoring and recovering debt. IFL obtains sufficient collateral as security in the event of non-payment by the borrower and all non performing facilities are analysed periodically to make sure the Company maintains a very low non-performing loan (NPL) ratio.

### CONCENTRATION RISK

Concentration risk occurs when facilities are extended to a single counterparty, industry or geographical area. IFL sets prudential limits on maximum exposure which are reviewed periodically and single borrower limits as defined by the Finance Companies Direction No. 4 of 2006 issued by Central Bank of Sri Lanka.

### LIQUIDITY RISK

Liquidity risk arises when the Company has insufficient funds to meet obligations due to unmatched maturities in assets and liabilities. The primary objective of IFL's liquidity management policy is to ensure availability of adequate funding for its daily business activities. The Company also maintains the statutory liquid asset ratios at required levels as a method that measures and controls liquidity risk.

The following precautionary measures are implemented to maintain a healthy liquidity position.

- ↳ Preparation of an annual budget and identification of future funding requirement
- ↳ Identification of the cumulative gap in the current year's assets and liabilities
- ↳ Identification of the amount of unpredicted cash requirements arose during the past 6 months
- ↳ Identification of the cash flows arising from interest earning assets

### INTEREST RATE RISK

Interest rate risk is resulted from adverse and unanticipated movements in future interest rates impacting credit facilities granted and deposits accepted by the company. Several factors give rise to interest rate risk. Where main two types are identified as;

- ↳ Term structure risk – due to the mismatch in maturity of assets and liabilities
- ↳ Basis risk – arising due to differences in interest rates bases

IFL conducts periodic review of interest rates by,

- ↳ Analysing past fluctuations of interest rate patterns and forecasting Interest rate movements based on these past trends
- ↳ Monitoring other market factors including market liquidity and Treasury bill rates

- ↳ Identifying the gap analysis of interest earning assets and interest paying liabilities
- ↳ Identifying the effect on net interest income.

### CURRENCY RISK

Currency risk is defined as the potential changes arising from exchange rates of various currencies. IFL is exposed to currency risk if the exchange rate risk is not transferable at the time of transaction. The Company monitors currency rate fluctuations and forecasts exchange rate trends based on past movements.

### COLLATERAL RISK

Collateral risk arises due to the value of security held being insufficient to meet the capital outstanding of the facilities in event of default of payment by the customer. IFL ensures at all times that the value of collateral held as security is sufficient to meet the facility amount in case of default and have the following in place to mitigate the collateral risk:

- ↳ Physical verification of the asset before granting facilities
- ↳ Check absolute ownership of the asset
- ↳ Obtain a valuation report from a CBSL approved valuer
- ↳ Obtain a full Insurance policy for the asset

### STRATEGIC RISK

Strategic risk is defined as the adverse impact on company's earnings and/ or equity due to improper implementation of strategies and decisions or unresponsiveness

# Risk Management Report

to industry changes. At IFL, all strategic decisions are discussed and decided at board level, with the board obtaining professional and/or external expertise advices when required. Having appropriately addressed the company's strategic risk indicators, IFL has minimised the level of strategic risk exposure.

## OPERATIONAL RISK

Operational risk is the risk of financial losses due to the failure or inadequacy of internal processes or systems, human error or external events. Mainly placed under fraud risk and technological risk, IFL manages operational risks by maintaining a comprehensive system of internal controls and using technology to automate processes and minimise manual errors. The company has established a continuous internal audit process using the services of BDO Partners Chartered Accountants.

## REGULATORY RISK

Regulatory risk is the financial loss and damage to the reputation of the Company that arises from failing to comply with applicable laws and regulations. As the financial industry is highly regulated and is continuously monitored for compliance by the regulatory bodies, the Company has set internal procedures to ensure that all regulatory reporting requirements are met and all statutory payments are paid before due dates.

## REPUTATIONAL RISK

Reputational risk is minimal for IFL given the implementation of comprehensive and rigorous risk management strategies and procedures. Reputational risk cannot be managed in isolation from other forms of risks, since all can have impact on reputation which in turn impact the IFL brand, earnings and capital. Credit, liquidity, interest rate, operational and regulatory risks are managed effectively in order to safeguard the company's reputation, as IFL has identified reputation as a valuable business asset in its own right and essential component in optimizing shareholder value.

FINANCIAL STATEMENTS

Our progressive strategies have enabled us to secure enduring stakeholder value to thrive in an immensely vast and competitive industry.

# PROGRESSING

# Statement of Directors' Responsibilities For Financial Reporting

The Directors are required by the Companies Act, No. 7 of 2007 to prepare financial statements for each financial year, which give a true and fair view of the statement of affairs of the Company as at the end of the financial year and the income and expenditure of the Company for the financial year.

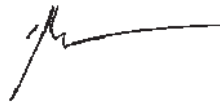

The Directors are also responsible to ensure that the financial statements comply with any regulations made under the Companies Act which specifies the form and content of financial statements and any other requirements which apply to the Company's financial statements under any other law.

The Directors consider that the financial statements presented in this Annual Report have been prepared using appropriate accounting policies, consistently applied and supported by reasonable and prudent judgments and estimates and in compliance with the Sri Lanka Accounting Standards, Companies Act, No. 7 of 2007, Sri Lanka Accounting and Auditing Standards Act, No. 15 of 1995 and Finance Business Act No. 42 of 2011 and the relevant Directions issued in respect of Registered Finance Companies.

The Directors are responsible for ensuring that the Company keeps sufficient accounting records, which disclose the financial position of the Company with reasonable accuracy and enable them to ensure that the financial statements have been prepared and presented as aforesaid. They are also responsible for taking measures to safeguard the assets of the Company and in that context to have proper regard to the establishment of appropriate systems of internal control with a view to prevention and detection of fraud and other irregularities.

The Directors continue to adopt the going concern basis in preparing the financial statements. The Directors, after making inquiries and review of the Company's Business Plan for the financial year 2020/21, including cash flows and borrowing facilities, consider that the Company has adequate resources to continue in operation. By Order of the Board

# Directors Statement on Internal Control Over Financial Reporting

## RESPONSIBILITY

In line with the section 10(2)(b) of the Finance Companies Direction No. 03 of 2008 as amended by the Finance Companies (Corporate Governance – Amendment) Direction No. 06 of 2013, the Board of Directors present this report on Internal Control over Financial Reporting.

The Board of Directors (“the Board”) is responsible for the adequacy and effectiveness of the internal control mechanism in place at Ideal Finance Limited. (“the Company”).

The Board has established an ongoing process for identifying, evaluating and managing the significant risks faced by the Company and this process includes the system of Internal Control over Financial Reporting which, regularly reviewed by the Board.

The Board is of the view that the system of Internal Control over Financial Reporting in place is sound and adequate to provide reasonable assurance regarding the reliability of Financial Reporting, and that the preparation of Financial Statements for external purposes is in accordance with relevant accounting principles and regulatory requirements.

The Management assists the Board in the implementation of the Board’s policies and procedures pertaining to Internal Control over Financial Reporting. The management is in the process of continuously enhancing the documentation of the system of Internal Control over Financial Reporting. In assessing the Internal Control System over Financial Reporting, identified officers of the Company collated all procedures and controls that are connected with significant accounts and disclosures of the Financial Statements of the Company. These in turn are being observe and checked by the Internal Auditors of the Company for suitability of the design and implementation effectiveness, on an on-going basis.

In adopting Sri Lanka Accounting Standards comprising LKAS and SLFRS progressive improvements on processes to comply with requirements of recognition, measurement, classification and disclosure are being made whilst further strengthening of processes will take place pertaining to Financial Statements risk management disclosures, related party disclosures and management information system.

Board has given due consideration for the adoption of SLFRS 9 “Financial Instruments. The required modules have been implemented and progressive improvements on processes and

controls are being made to strengthen the processes and controls around the management information systems and report required for validation and compliance in line with SLFRS 9.

During the period the Company further strengthened its internal control processes to ensure that the impact of the COVID-19 debt moratorium and impairment provisions were accurately captured in the financial reporting. The Management also ensured that all critical reconciliations were performed without interruption during the lockdown periods. All required adjustments have been made in the Financial Statements for the year ended 31 March 2021 and progressive improvements on processes and controls are being made to strengthen the process.

## CONFIRMATION

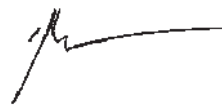

Based on the above processes, the Board confirms that the Financial Reporting System of the Company has been designed to provide reasonable assurance regarding the reliability of Financial Reporting and the preparation of Financial Statements for external purposes and has been prepared in accordance with Sri Lanka Accounting Standards and regulatory requirements of the Central Bank of Sri Lanka.

## REVIEW OF THE STATEMENT BY EXTERNAL AUDITOR

The External Auditor, Messrs Ernst & Young, has reviewed the above Directors’ Statement on Internal Control for the year ended 31 March 2021 and reported to the Board that nothing has come to their attention that causes them to believe that the Statement is inconsistent with their understanding of the process adopted by the Board in the review of the design and effectiveness of the internal control system of the Company.

TO THE BOARD OF DIRECTORS OF IDEAL FINANCE LIMITED

## REPORT ON THE DIRECTOR'S STATEMENT ON INTERNAL CONTROL

We were engaged by the Board of Directors of Ideal Finance Limited ("The Company") to provide assurance on the Directors' Responsibility Statement on Internal Control over Financial Reporting ("The Statement") included in the annual report for the year ended 31 March 2021.

### MANAGEMENT'S RESPONSIBILITY

Management is responsible for the preparation and presentation of the Statement in accordance with the "Guidance for Directors of License Finance Company/ Finance Leasing Company on the Directors' Statement on Internal Control" issued in compliance with section 10(2) (b) of the Finance Companies (Corporate Governance) Direction No. 3 of 2008/ section 10 (2) (b) of the finance Leasing (Corporate Governance) Direction no. 4 of 8 2009, by the Institute of Chartered Accountants of Sri Lanka.

### OUR INDEPENDENCE AND QUALITY CONTROL

We have complied with the independence and other ethical requirement of the Code of Ethics for Professional Accountants issued by the Institute of Chartered Accountants of Sri Lanka, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies Sri Lanka Standard on Quality Control 1 and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

## OUR RESPONSIBILITIES AND COMPLIANCE WITH SLSAE 3051

Our responsibility is to assess whether the Statement is both supported by the documentation prepared by or for directors and appropriately reflects the process the directors have adopted in reviewing the design and effectiveness of the internal control of the Company.

We conducted our engagement in accordance with Sri Lanka Standard on Assurance Engagements (SLSAE) 3051, Assurance Report for License Finance Company/Finance Leasing Company on Directors' Statement on Internal Control, issued by the institute of Chartered Accountants of Sri Lanka.

This Standard required that we plan and perform procedures to obtain limited assurance about whether Management has prepared, in all material respects, the Statement on Internal Control.

For purpose of this engagement, we are not responsible for updating or reissuing any reports, nor have we, in the course of this engagement, performed an audit or review of the financial information.

### SUMMARY OF WORK PERFORMED

We conducted our engagement to assess whether the Statement is supported by the documentation prepared by or for directors; and appropriately reflected the process the directors have adopted in reviewing the system of internal control over financial reporting of the Company.

The procedures performed were limited primarily to inquiries of Company personnel and the existence of documentation on a sample basis that supported the process adopted by the Board of Directors.

A member firm of Ernst & Young Global Limited

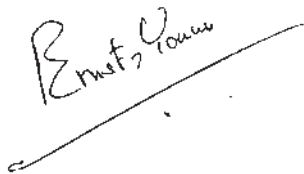

SLSAE 3051 does not require us to consider whether the Statement covers all risks and controls or to form an opinion on the effectiveness of the Company's risk and control procedures. SLSAE 3051 also does not require us to consider whether the processes described to deal with material internal control aspects of any significant problems disclosed in the annual report will, in fact, remedy the problems.

The procedures selected depend on our judgement, having regard to our understanding of the nature of the Company, the event or transaction in respect of which the Statement has been prepared.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

#### **OUR CONCLUSION**

Based on the procedures performed, nothing has come to our attention that causes us to believe that the Statement included in the annual report is inconsistent with our understanding of the process the Board of Directors has adopted in the review of the design and effectiveness of internal control over financial reporting of the Company.

A handwritten signature in black ink, appearing to read "Ernst & Young", is written over a long, thin horizontal line that extends across the width of the signature.

## TO THE SHAREHOLDERS OF IDEAL FINANCE LIMITED

### Report on the audit of the financial statements

#### Opinion

We have audited the financial statements of IDEAL Finance Limited ("the Company"), which comprise the statement of financial position as at 31 March 2021, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements of the Company give a true and fair view of the financial position of the Company as at 31 March 2021, and of their financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

#### Basis for opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by CA Sri Lanka (Code of Ethics) and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as

management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those

Partners: W R H Fernando FCA FCMA R N de Saram ACA FCMA Ms. N A De Silva FCA Ms. Y A De Silva FCA W R H De Silva ACA ACMA W K B S P Fernando FCA FCMA

A member firm of Ernst & Young Global Limited

risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

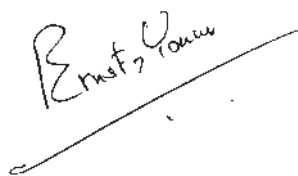

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Report on Other Legal and Regulatory Requirements**

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company.

The Accounting Policies and Notes on pages 98 through 149 form an integral part of the Financial Statements.

# Notes to the Financial Statements

Year ended 31 March 2021

## 1. CORPORATE INFORMATION

### 1.1 General

IDEAL Investment Limited is a limited liability company, incorporated on 24 January 2012 under companies Act No.7 of 2007 and then changed the name as IDEAL Finance Limited on 12 March 2012 and domiciled in Sri Lanka. The registered office of the company is situated at No.299, Dr. Colvin R De. Silva Mawatha (Union Place), Colombo 02.

IDEAL Finance Limited is licensed by Monetary Board of the Central Bank of Sri Lanka under the Finance Business Act No. 42 of 2011, and also registered under the Finance Leasing Act No.56 of 2000.

### 1.2 Principal Activities and Nature of Operations

During the year, the principal activities of the Company were Acceptance of Deposits, Granting Lease, Loan Facilities and Gold Advances.

### 1.3 Parent Entity and Ultimate Parent Entity

IDEAL Motors (Private) Limited is the parent of IDEAL Finance Limited. Further the company does not have any investments in the form of subsidiary, joint venture or associate.

### 1.4 Date of Authorization for Issue

The financial statements of IDEAL Finance Limited for the period ended 31 March 2021 were authorized for issue in accordance with a resolution of the Board of Directors on 15 April 2021.

## 2. ACCOUNTING POLICIES

### 2.1 Basis of Preparation

#### 2.1.1 Statement of Compliance

The Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows, together with Accounting Policies and Notes, ('Financial Statements'), as at 31 March 2021 and for the period then ended, have been prepared

in accordance with Sri Lanka Accounting Standards (hereafter referred as "SLFRS"), laid down by the Institute of Chartered Accountants of Sri Lanka and in compliance with the requirements of the Companies Act No. 07 of 2007 and amendments thereto.

#### 2.1.2 Responsibility for Financial Statements

The Board of Directors of the Company is responsible for these Financial Statements of the Company as per Sri Lanka Accounting Standards (SLFRSs and LKASs) and the provisions of the Companies Act No 7 of 2007.

#### 2.1.3 Basis of measurement

The financial statements have been prepared on a historical cost basis except retirement benefits obligation, which was ascertained by an actuarial valuation.

#### 2.1.4 Presentation of Financial Statements

In compliance with LKAS 01 on Presentation of Financial Statements, each material class of similar items are presented separately in the Financial Statements. Items of dissimilar nature or functions are presented separately, unless they are immaterial.

The company presents its Statements of Financial Position broadly in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 36.

#### 2.1.5 Functional and presentation currency

The financial statements are presented in Sri Lankan Rupees, except when otherwise is indicated. No adjustments have been made for inflationary factors.

#### 2.1.6 Materiality, Aggregation Offsetting and Rounding Off

In compliance with LKAS 01 on Presentation of Financial Statements, each material class of similar items is presented separately in the Financial Statements. Items of dissimilar nature or functions too are presented separately, unless they are immaterial.

Year ended 31 March 2021

Financial Assets and Financial Liabilities are offset and the net amount reported in the Statement of Financial Position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously. Income and expenses are not offset in the Statement of Profit or Loss unless required or permitted by any accounting standard or interpretation, and as specifically disclosed in the accounting policies.

The amounts in the financial statements have been rounded off to the nearest Sri Lankan Rupee, except where otherwise indicated as permitted by the Sri Lanka Accounting Standard (LKAS 1) – 'Presentation of Financial Statements'.

#### 2.1.7 Comparative Information

The accounting policies have been consistently applied by the Company and, are consistent with those used in the previous financial year. Further comparative information is reclassified whenever necessary to comply with the current presentation in the Financial Statements. However, the Company has not restated comparative information for 2020.

#### 2.1.8 Statement of Cash Flow

The cash flow statement has been prepared by using the indirect method in accordance with the Sri Lanka Accounting Standard - LKAS 7 (Statement of Cash Flows), whereby operating, investing and financial activities have been separately recognised. Cash and cash equivalents comprise of short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Cash and cash equivalents include cash in hand, balances with banks, placements with banks (less than 3 months), net of unfavorable bank balances and securities purchased under repurchase agreement (less than three months).

#### 2.1.9 Events After the Reporting Date

Events after the Reporting Date are those events, favorable and unfavorable, that occur between the reporting date and the date when the Financial Statements are authorised for issue. In this regard, all material and important events that occurred after the reporting period have been considered and appropriate disclosures are made in note 38 to the Financial Statements.

### 2.2 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of Financial Statements of the Company in conformity with Sri Lanka Accounting Standards requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

#### COVID-19 impact on the use of estimates and assumptions

The Company has considered the impact of COVID-19 when preparing the financial statements and related note disclosures. While the effects of COVID-19 do not change the significant estimates, judgments and assumptions in the preparation of financial statements, it has resulted in increased estimation uncertainty and application of further judgment within those identified areas.

COVID-19 financial reporting considerations in the preparation of the financial statements

Given the increased economic uncertainties from COVID-19, the Company has enhanced its financial reporting procedures and governance practices

# Notes to the Financial Statements

Year ended 31 March 2021

surrounding the preparation of the financial statements. In addition to standard financial year end reporting practices, the Company has:

- ↘ Developed a detailed program of work to understand and analyse how COVID-19 may impact key disclosures in the financial statements;
- ↘ Critically assessed estimates, judgments and assumptions used in the preparation of the financial statements, including updating the Company's outlook on economic conditions arising from COVID-19;
- ↘ Reviewed external publications and market communications to identify other potential COVID-19 impacts in the preparation of the financial statements;
- ↘ Considered emerging market practice and trends along with regulatory pronouncements to assess the completeness of assessed COVID-19 impacts in the preparation of the financial statements;
- ↘ Determined the impact of COVID-19 has had on the reported amounts and disclosures in the financial statements and updated these disclosures accordingly.

The most significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have most significant effect on the amounts recognised in the Financial Statements of the Company are as follows:

## i. *Going Concern*

The board has made an assessment of the company's ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the board is not aware of any material uncertainties that may cast significant doubt upon the company's ability to continue as a going concern and they do not intend either to liquidate or to cease operations of the company. Further, the Directors have considered the potential downsides that the COVID-19 pandemic could bring to the business operations of the Company, in making this assessment. Therefore, the financial statements continue to be prepared on the going concern basis.

## ii. *Impairment losses on loans and receivables*

The measurement of impairment losses under SLFRS 9 across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- ↘ Number of days past due and the Guidelines issued by the Central Bank of Sri Lanka
- ↘ The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment
- ↘ The segmentation of financial assets when their ECL is assessed on a collective basis
- ↘ Development of ECL models, including the various formulas and the choice of inputs
- ↘ Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs
- ↘ Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

In response to COVID-19 and the Company's expectations of economic impacts, key assumptions used in the calculation of ECL have been revised. The economic scenarios and forward-looking macroeconomic assumptions underpinning the collective provision calculation are outlined in Note 2.3.1.4.2, while the impact on changing the weightages of different macroeconomic scenarios during the year are given in Note 41.5.3. As at

Year ended 31 March 2021

the reporting date, the expected impacts of COVID-19 have been captured via the modelled outcome as well as a separate management overlay reflecting the considerable uncertainty remaining in the modelled outcome given the unprecedented impacts of COVID-19. Although the credit model inputs and assumptions, including forward-looking macroeconomic assumptions, were revised in response to the COVID-19 pandemic, the fundamental credit model mechanics and methodology underpinning the calculation of ECL have remained consistent with prior periods.

The Company is focused on supporting customers who are experiencing financial difficulties because of the COVID-19 pandemic and has offered a range of industry-wide financial assistance measures including the debt moratorium initiated by the Central Bank of Sri Lanka. As per industry guidance given by the Central Bank and the Institute of Chartered Accountants of Sri Lanka, eligibility for the debt moratorium does not automatically result in a significant increase in credit risk (SICR) which moves an exposure from stage 1 (12-month ECL) to stage 2 (lifetime ECL). A case-by-case analysis has been conducted on the most significant exposures and only those exposures with increased credit risk has been moved to stage 2 and stage 3. Further, the exposures which are not individually significant has been moved to stage 2 and stage 3 based on the industry risk of the underlying borrowers. This approach ensures the volume of exposures in stage 2 & stage 3 reflects a forward-looking view of the economy as at the reporting date.

### iii. *Fair Value of Financial Instruments*

The determination of fair values of financial assets and financial liabilities recorded in the Statement of Financial Position for which there is no observable market price is based on using a variety of valuation techniques that include the use of mathematical models. The valuation of financial instruments is described in Note 35 to the Financial Statements. The Company measures fair value using the fair value hierarchy that reflects the significance of input used in making measurements. The fair value hierarchy is given in Note 35.1 to the Financial Statements. The determination of the fair value of the financial instruments of the Company were not materially affected by the significant volatility in financial markets created by the COVID - 19 pandemic.

### iv. *Financial Assets and Financial Liabilities Classification*

The Company's accounting policies provide scope for assets and liabilities to be classified, at inception in to different accounting categories. The classification of financial instruments is given in Note 34 "Analysis of Financial Instruments by Measurement Basis". The COVID-19 pandemic has resulted in significant volatility in the financial markets. However, the Company did not require to reclassify any of its financial assets as a result of the significant volatility created by the pandemic.

### v. *Defined Benefit Plan*

The cost of the defined benefit pension plan is determined using an actuarial valuation. The actuarial valuation involves making assumptions about discount rates, future salary increases, and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty. Assumptions used are disclosed in Note 29.

### vi. *Useful Life-time of the Property, Plant, Equipment and Intangible Assets*

The Company reviews the residual values, useful lives and methods of depreciation and amortization of property, plant, equipment and intangible assets at each reporting date. The judgement of the management is exercised in the estimation of these values, rates, methods and hence they are subject to uncertainty.

### vii. *Fair value of Property, Plant & Equipment*

The free hold land of the Company is reflected at fair value at the date of revaluation less any accumulated impairment losses. The Company engages an independent valuation specialist to determine the fair value of free hold land in terms of Sri Lanka Accounting Standard -SLFRS 13, (Fair Value Measurement). The details of freehold land including methods of valuation are given in Note 26 to the Financial Statements. The Company has not revalued its freehold lands and buildings during this year for accounting purposes, on the basis that changes in property prices were not significant compared to the previous year

# Notes to the Financial Statements

Year ended 31 March 2021

## 2.3 Summary of Significant Accounting Policies

The significant accounting policies applied by the Company in preparation of its Financial Statements are included in below.

### 2.3.1 SLFRS 09 Financial Instrument

SLFRS 9 –Financial Instruments replaces LKAS 39 for annual periods on or after 1 January 2018. The company has adopted SLFRS-09 Financial Instruments with an initial application date of 1 April 2018.

#### 2.3.1.1 Classification & Measurement of Financial Assets and Liabilities

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- ↘ Amortised Cost,
- ↘ Fair Value through Other Comprehensive Income (FVOCI),
- ↘ Fair Value through Profit or Loss

Financial liabilities, other than loan commitments and financial guarantees, are measured at amortised cost or at FVPL or the fair value designation is applied.

#### 2.3.1.2 Financial Assets and liabilities

##### 2.3.1.2.1 Lease rental receivables, Loans and Receivables to Other Customers, Financial Investments at Amortised Cost.

The company only measures Lease, Loans and advances to customers and other financial investments at amortised cost if both of the following conditions are met:

- ↘ The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- ↘ The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

The classification of financial liabilities under SLFRS 9 does not follow the approach for the classification on financial assets. Financial liabilities are measured at amortised cost or fair value through profit or loss.

The details of conditions of business model assessment and the SPPI test are outlined below.

#### (a) Business Model Assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- ↘ How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- ↘ The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- ↘ How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- ↘ The expected frequency, value and timing of sales are also important aspects of the Company's assessment

#### (b) The SPPI Test

As a second step of its classification process the Company assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

An entity has a business model to hold the financial asset to collect the contractual cash flows. The characteristics of the contractual cash flows are that of solely payments of the principal amount and interest (referred to as "SPPI").

Year ended 31 March 2021

Principal for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

#### 2.3.1.2.2 Reclassification of Financial Assets and Liabilities

The company does not reclassify its financial assets or liability subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. The Company did not reclassify any of its financial assets or liabilities in year 2020/21.

#### 2.3.1.3 De-recognition of Financial Instruments

##### 2.3.1.3.1 Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when the rights to receive cash flows from the financial asset have expired.

##### 2.3.1.3.2 Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

##### 2.3.1.4 Impairment of Financial Assets

Overview of the Expected Credit Loss (ECL) Principles

The Company's loan loss impairment method by using forward-looking Expected Credit Loss (ECL) approach. From 1 April 2018, the Company has been recording the allowance for expected credit losses for all loans and other debt financial assets not held at FVPL, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under SLFRS 9.

The ECL allowance is based on the credit losses expected to arise over the life of the asset. The 12 months ECL is the portion of Life time ECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both Life time ECLs and 12 months ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Company groups its loans into Stage 1, Stage 2 and Stage 3.

##### Stage 1

When loans are first recognised, the Company recognises an allowance based on 12 months ECLs. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2.

##### Stage 2

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the Life time ECLs. Stage 2 loans also include facilities, where the credit risk has improved and the loan has been reclassified from Stage 3.

##### Stage 3

Loans considered credit-impaired. The Company records an allowance for the Life time ECLs.

#### 2.3.1.4.1 The Calculation of Expected Credit Loss (ECL)

The Company calculates ECLs under three staging approaches to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an

# Notes to the Financial Statements

Year ended 31 March 2021

entity in accordance with the contract and the cash flows that the entity expects to receive. The mechanics of the ECL calculations are outlined below and the key elements are as follows:

### *Probability of Default (PD)*

The Probability of Default (PD) is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously recognised and is still in the portfolio.

However, for placements with Banks and other financial investments classified as amortised cost and fair value through other Comprehensive Income the Company relies on external credit rating in determining their respective PDs.

### *EAD*

The Exposure at Default (EAD) is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments.

### *LGD*

The Loss Given Default (LGD) is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive.

2.3.1.4.2 The mechanics of the ECL method are summarized below:

#### *Stage 1*

The 12 months ECL is calculated as the portion of LTECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12

months after the reporting date. The Company calculates the 12 months ECL allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR. This calculation is made for each of the three scenarios, as explained above.

#### *Stage 2*

When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. The mechanics are similar to those explained above but PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.

#### *Stage 3*

For loans considered credit-impaired, the Company recognises the LTECL for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%. The Company recognises the interest income on loans classified under stage 3 at the effective interest rate on amortised cost.

#### *Forward Looking Information*

In its ECL models, the Company relies on a broad range of forward looking information as economic inputs, such as:

Quantitative	Qualitative
GDP Growth	Government Policies
Inflation	Status of the Industry Business
Unemployment	Regulatory Impact
Interest Rates	
Exchange Rates	

#### *Exchange Rates*

The inputs and models used for calculating ECLs may not always capture all the characteristics of the market at the date of the financial statements.

Year ended 31 March 2021

The COVID-19 pandemic has significantly impacted the local economy. The economic environment remains uncertain and future impairment charges may be subject to further volatility depending on the longevity of the COVID-19 pandemic and related containment measures. To reflect these uncertainties in the calculation of expected credit losses, the Company has changed the weightages assigned for multiple economic scenarios during the year. Weightages assigned for each scenario is given below along with the weightages used in 2020/21.

	2020/21	2019/20
Base case	20%	20%
Best case	15%	30%
Worst case	65%	50%

The inputs and models used for calculating ECLs may not always capture all characteristics of the market as at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

To ensure completeness and accuracy, the company obtains necessary data primarily from publications of Central Bank of Sri Lanka.

### 2.3.1.5 Determination of Fair Value

The Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 -Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the

# Notes to the Financial Statements

Year ended 31 March 2021

hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The disclosure of fair value of financial instruments is disclosed in Note 35 to the Financial Statements.

## 2.3.2 Lease

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

### 2.3.2.1 Finance Lease

#### *Company as a lessor*

Assets leased to customers which transfer substantially all the risks and rewards associated with ownership other than legal title, are classified as 'Finance Lease'. Amount receivables under finance lease are included under 'Lease Rentals Receivable and Stock Out on Hire' in the Statement of Financial Position after deduction of unearned lease income and accumulated impairment losses. When assets are held subject to a finance lease, the present value of the lease payments, discounted at the rate of interest implicit in the lease, is recognized as a receivable. The difference between the total payments receivable under the lease and the present value of the receivable is recognized as unearned finance income, which is allocated to accounting periods reflect a constant periodic rate of return.

### 2.3.2.2 SLFRS 16 – Leases

#### *Company as a lessee*

SLFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. lessee and lessor. SLFRS 16 supersedes Sri Lanka Accounting Standard - LKAS 17 (Leases) and related interpretations, SLFRS 16 introduces

a single accounting model for the lessee, eliminating the present classification of leases in LKAS 17 as either operating leases or finance leases.

The company has adopted SLFRS 16 using modified retrospective method from 1 April 2019, without restating comparatives for the 2018/19 reporting period, as permitted under the specific transitional provisions in the standard. At the date of adoption, right of use was recognized as amount equal to the lease liability, adjusted by the amount of prepaid lease rentals.

Under this method, the standard is applied retrospectively and the cumulative effect as at initial date of application of the standard i.e 1 April 2019 has been duly adjusted. The company elected to use the transitional practical expedient to not reassess whether an existing contract forms a lease as at 1st April 2019, under the definitions provided in the standard. Instead, the company applied the standard only to contracts that were previously identified as leases applying LKAS 17 at the date of initial application.

The contracts which were previously classified as "operating leases" under the principles of LKAS 17 -Leases, have been recognize as "right of- use assets" with the adoption of SLFRS 16 -Leases.

## 2.3.3 Cash and cash equivalents

Cash and cash equivalents as referred to in the cash flow statement comprises cash in hand, and amounts due from banks on demand or with an original maturity of three months or less.

## 2.3.4 Property, Plant and Equipment

Property, plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or method, as appropriate, and treated as changes in accounting estimates.

Year ended 31 March 2021

Depreciation is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives. The estimated useful lives are as follows:

Category	Years
Furniture & Fittings	05
Office Equipment	05
Motor Vehicles	05
Computer Equipment	05

The depreciation method and residual values of assets are reviewed at each financial year-end and, if there has been a significant change in the expected pattern of consumption of the future economic benefits embodied in the asset, the method shall be changed to reflect the changed pattern.

Property plant & Equipment is derecognized on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the assets (calculated as the difference between the net disposal proceeds and carrying amount of the assets) is recognized in 'Other Operating Income' in the Statement of Comprehensive Income (Profit or Loss) in the year the asset is recognized.

### 2.3.5 Right-Of-Use Assets

#### 2.3.5.1 Basis of recognition

The Company applies Sri Lanka Accounting Standard SLFRS 16 "Leases" in accounting for all lease hold rights except for leases due to expire during the financial year and leases on which implications to the financial statements are not considered to be material. The company uses its judgment to determine whether an operating lease contract qualifies for recognition of right-of-use assets. The company applies judgements in evaluating the level of certainty whether the option of renewing the lease exists or otherwise. That is, it considers all relevant factors that create an economic benefits for it to exercise either the renewal or termination.

#### *Basis of measurement*

The company recognises right-of-use assets at the date of commencement of the lease, which is the present value of lease payments to be made over the lease term. Right-of-Use assets are measured at cost less any accumulated amortization and impairment losses and adjusted for any re-measurement of lease liabilities. The cost of the right-of-use assets includes the amount of lease liabilities recognised, initial direct cost incurred, and lease payments made at or before the commencement date less any lease incentives received. Right of use assets are amortised on the straight line basis over the lease term.

When measuring lease liabilities for leases that were classified previously as operating leases, the company discounted future lease payments due as of 1 April 2019 using the incremental borrowing rate as at 1 April 2019. The rate applicable was 14%.

The Company has elected not to recognise right of use assets and lease liabilities for leases of low value assets and short term leases. The company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

### 2.3.6 Intangible assets

The company's other intangible assets include the value of computer software. An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the company. Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

# Notes to the Financial Statements

Year ended 31 March 2021

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and they are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is presented as a separate line item in the statement of comprehensive income.

Computer System software is amortised over: 10 years

## 2.3.7 Other Assets

All other assets are stated at amortised cost less accumulated impairment losses.

## 2.3.8 Inventories

Inventories include stationeries and these are valued at the lower of cost and net realizable value.

## 2.3.9 Impairment of non-financial assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's fair value less costs to sell and its value in use. Where the carrying amount of an asset or cash generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or cash generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of comprehensive income.

## 2.3.10 Employee Retirement Benefits

### *Defined Contribution Plan Costs*

Defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to a defined contribution plan are recognized as a Personnel Expenses in the Statement of comprehensive income in the periods during which services are rendered by employees. Employees are eligible for employees' Provident Fund and Employees Trust Fund Contributions in line with the respective Statutes and regulations. Accordingly, the company contributes 12% and 3% of gross emoluments of employees to Employees' Provident Fund and Employee Trust Fund respectively and is recognized as an expense under "Personnel Expenses".

### *Defined Benefit Plan Costs*

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The liability recognized in the Statement of Financial Position in respect of defined benefit plan is the present value of the defined benefit obligation at the reporting date. The defined benefit obligation is calculated using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting

Year ended 31 March 2021

the estimated future cash flows using interest rate that are denominated in the currency in which the benefit will be paid, and that have terms of maturity approximating to the terms of the liability.

Provision has been made in the Financial Statements for retiring gratuities from the first year of service for all employees, in conformity with LKAS 19-“Employee Benefits”.

However, according to the payment of Gratuity Act No.12of 1983, the liability for payment to an employee arises only after the completion of 5 years continued services. The liability is not externally funded.

#### 2.3.11 Provisions

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

#### 2.3.12 Other Liabilities

Other liabilities are recorded at the cash value to be realized when settled.

#### 2.3.13 Foreign currency translation

Transactions in foreign currencies are initially recorded at the functional currency rate of exchange ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange at the statement of financial position date. All differences arising on non-trading activities are taken to ‘Other operating income’ in the income statement.

#### 2.3.14 Recognition of income and expenses

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

##### (i) *Interest income and interest expense*

For all financial instruments measured at amortised cost, interest bearing financial assets classified as available-for-sale and financial instruments designated at fair value through profit or loss, interest income or expense is recorded using the Effective Interest Rate. Effective Interest Rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the Effective Interest Rate, but not future credit losses.

The carrying amount of the financial asset or financial liability is adjusted if the company revises its estimates of payments or receipts. The adjusted carrying amount is calculated based on the original Effective Interest Rate and the change in carrying amount is recorded as ‘Interest Income’ for financial assets and Interest Expense for financial liabilities. However, for a reclassified financial asset for which the company subsequently increases its estimates of future cash receipts as a result of increased recoverability of those cash receipts, the effect of that increase is recognised as an adjustment to the Effective Interest Rate from the date of the change in estimate.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

# Notes to the Financial Statements

Year ended 31 March 2021

## (ii) *Fee and commission income*

The company earns fee and commission income from a diverse range of services it provides to its customers. Fee income can be divided into the following two categories:

- Fee income earned from services that are provided over a certain period of time.
- Fees earned for the provision of services over a period of time are accrued over that period. These fees include commission income and service charges.

### *Fee income from providing transaction services*

Fees arising from negotiating or participating in the negotiation of a transaction for a third party are recognised on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognised after fulfilling the corresponding criteria.

## (iii) *Dividend income*

Dividend income is recognised when the company's right to receive the payment is established.

## (iv) *Expenditure Recognition*

Expenses are recognized in profit or loss in the statement of comprehensive Income on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency has been charged to the statement of Comprehensive Income (Profit or loss). For the purpose of presentation of the statement of comprehensive Income, the "function of expenses" method has been adopted, on the basis that it presents fairly the element of the company's performance.

### 2.3.15 Taxes

#### a. *Current Tax*

The provision for the income tax is based on the elements of the income and expenditure as reported in the Financial Statements and computed in accordance with the provisions of Inland Revenue Act, No. 24 of 2017.

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

#### b. *Deferred Tax*

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credit and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### c. *Value Added Tax on Financial Services*

Value Added Tax on Financial Services is calculated at the rate of 15% in accordance with the provisions of the Value Added Tax Act No. 14 of 2002 and amendments thereto.

Year ended 31 March 2021

**d. Nation Building Tax ( NBT) and Debt Repayment Levy (DRL) on Financial Services**

NBT on financial services is calculated in accordance with Nation Building Tax (NBT) Act No 9 of 2009 and subsequent amendments thereto with effect from 01 January 2014. NBT on financial services was calculated as 2% of the value addition used for the purpose of VAT on financial services.

However the Company was not liable for NBT during the year 2020/21 as NBT abolished with effective from 1st December 2019.

**e. Debt Repayment Levy (DRL) on Financial Services**

Debt Repayment Levy has been imposed by the Finance Act, No. 35 of 2018 commencing from 1 October 2018. The base for the computation of Debt Repayment Levy is the value addition attributable to the supply of financial services computed for VAT on financial services before deducting for VAT and NBT on financial services and DRL. The DRL rate was 7%.

The Company was not liable for DRL during the year 2020/21 as DRL abolished with effective from 1st January 2020.

### 2.3.16 Regulatory provisions

**a) Deposit Insurance and Liquidity Support Scheme**

In terms of the Finance Companies Direction No.2 of 2010 "Insurance of Deposit Liabilities" issued on 27 September 2010 and subsequent amendments thereto, all Finance Companies are required to insure their deposit liabilities in the Deposit Insurance Scheme operated by the Monetary Board in terms of Sri Lanka Deposit Insurance Scheme Regulations No.1 of 2010 issued under Sections 32A to 32E of the Monetary Law Act with effect from 1 October 2010. The said Scheme was renamed as the "Sri Lanka Deposit Insurance and Liquidity Support Scheme" as per the Sri Lanka Deposit Insurance and Liquidity Support Scheme Regulation No. 1 of 2013.

The deposits to be insured shall include demand, time and savings deposit liabilities and exclude the following.

- ↘ Deposit liabilities to member institutions
- ↘ Deposit liabilities to the Government of Sri Lanka
- ↘ Deposit liabilities to shareholders, directors, key management personnel and other related parties as defined in Finance Companies Act(Corporate Governance) Direction No.3 of 2008 for Registered Finance Companies
- ↘ Deposit liabilities held as collateral against any accommodation granted
- ↘ Deposits falling within the meaning of abandoned property in terms of the Banking Act and dormant deposits in terms of the Finance Companies Act, funds of which have been transferred to the Central Bank of Sri Lanka in terms of the relevant Directions issued by the Monetary Board.

Registered Finance Companies are required to pay a premium of 0.15% on total amount of eligible deposits as at end of the month with in a period of 15 days from the end of the respective month.

**b) Crop Insurance Levy (CIL)**

As per the provisions of the Section 14 of the Finance Act No.12 of 2013, the CIL was introduced with effect from April 1, 2013 and is payable to the National Insurance Trust Fund. Currently, the CIL is payable at 1% of the profit after tax.

### 2.3.17 Related Party Transactions

Disclosure has been made in respect of the transactions in which one party has the liability to control or exercise significant influence over the financial and operating policies/ decisions of the other, irrespective of whether a price is being charged.

# Notes to the Financial Statements

Year ended 31 March 2021

## 2.3.18 Segment Reporting

The Company's segmental reporting is based on the following operating segments identified based on products and services;

- Finance Lease and Stock Out on Hire
- Term Loans
- Gold Loans
- Others

A segment is a distinguishable component of a Company that is engaged in providing products and services. (Business segment, which is subject to risks and rewards that are different from those of other segments).

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

The accounting policies adopted for segment reporting are those accounting policies adopted for preparing the financial statements of the Company.

## 2.3.19 Sri Lanka Accounting Standards Not Yet Effective as at 31 March 2021

The following Sri Lanka Accounting Standards and interpretations have been issued by the Institute of Chartered Accountants of Sri Lanka which are not yet effective as at 31 December 2020. The Company intends to adopt these new and amended standards, if applicable, when they become effective.

### 1. Amendments to SLFRS 9, LKAS 39, SLFRS 7, SLFRS 4 and SLFRS 16 – Interest Rate Benchmark Reform (Phase 1 and Phase 2)

The amendments to SLFRS 9 & LKAS 39 provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainty about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument.

IBOR reforms Phase 2 include number of reliefs and additional disclosures. Amendments support companies in applying SLFRS when changes are made to contractual cash flows or hedging relationships because of the reform.

These amendments to various standards are effective for the annual reporting periods beginning on or after 01 January 2021. The Company is in process of assessing the potential impact of implementation of the aforementioned amendments.

### 2. SLFRS 17 Insurance Contracts

SLFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, SLFRS 17 will replace IFRS 4 Insurance Contracts (SLFRS 4). SLFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. The Financial Statements of the Company is not expected to have a material impact from SLFRS 17 - Insurance Contracts.

## 11.2 Reconciliation of Accounting Profit and Taxable Income

A reconciliation between the tax expense and the accounting profit multiplied by Income tax rate for the year ended 31 March 2021 as follows.

	2021 LKR	2020 LKR
Accounting Profit / (Loss) Before Income Taxation	288,437,688	164,035,179
Aggregate allowable expenditure	(337,641,799)	(639,894,973)
Tax loss utilised	-	-
Aggregate disallowable expenditure	564,865,559	757,697,761
	515,661,448	281,837,967
Tax at statutory rates	144,385,205	76,096,251
Add : Under provision adjustments	-	459,651
	144,385,205	76,555,902
Deferred taxation charged/(Reversal)	(39,702,793)	(17,871,807)
	(39,702,793)	(17,871,807)
Effective Tax Rate	36.29%	35.78%

### Amendments to the Income Tax Law announced by the Government

As per the announcement dated 12 February 2020, income tax rate applicable for the Finance sector has been reduced to 24% with effect from 01 January 2020. However, as the said amendment is yet to be enacted, both income tax and deferred tax were calculated at the rate of 28% for the year ended 31 March 2021.

Year ended 31 March 2021

## 12. BASIC AND DILUTED EARNING PER ORDINARY SHARES

12.1 Basic and diluted earning per share is calculated by dividing net profit for the period attributable to ordinary share holders by weighted average number of ordinary shares outstanding during the period, as per LKAS-33-Earning Per Share.

12.2 The following reflect the income and share details used in Basic and Diluted Earning Per Share computation;

	2021 LKR	2020 LKR
<b>Amount Used as Numerators</b>		
Profit attributable to Ordinary Share Holders	183,755,275	105,351,084
<b>Number of Ordinary shares used as Denominator</b>		
Weighted Average Number of Ordinary Shares	145,639,098	94,636,592
<b>Basic and Diluted Earning Per Ordinary Shares</b>	<b>1.26</b>	<b>1.11</b>

Company's ordinary shares were increased on 28 February 2020 with the issue of 36,842,105 shares at LKR 19.00 each and 18,796,993 shares at LKR 21.28 each. As a result the number of shares increased to 145,639,098.

## 13. CASH AND BANK BALANCES

	2021 LKR	2020 LKR
Cash in Hand	22,483,451	12,823,559
Bank Balances	49,125,942	31,373,023

## 35. FAIR VALUE OF FINANCIAL INSTRUMENTS

### 35.1 Determination of Fair Value and Fair Value Hierarchy

The company use the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

- Level 1 : Quoted prices in active markets for identical assets and liabilities.
- Level 2 : Other technique for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

As at 31 March 2021

#### Financial Investments - Measured at Fair Value through other comprehensive income

Equity instruments at fair value through OCI/Available for sale financial assets primarily consist of unquoted equity securities. Unquoted equity securities are carried at cost since it is the most reasonable value available to represent the price of such securities.

### 35.2 Fair Value of the Financial Instrument Carried at Amortized Cost

Set out below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments that are not carried at fair value in the financial Statements. This table does not include the fair values of non financial assets and liabilities.

As at 31 March 2021	Level	Carrying Amount LKR	Fair Value LKR
<b>Financial Assets</b>			
Lease Rentals Receivable and Stock out on Hire	Level 02	2,414,429,648	2,533,566,709
Loans and Advances	Level 02	865,820,622	901,171,057
<b>Financial Liabilities</b>			
Interest Bearing Borrowings	Level 02	1,601,648,671	1,435,344,492
Finance Lease	Level 02	1,182,051	1,180,714

Year Ended 31st March 2021

### 35.2 Fair Value of the Financial Instrument Carried at Amortized Cost

As at 31 March 2020	Level	Carrying Amount LKR	Fair Value LKR
<b>Financial Assets</b>			
Lease Rentals Receivable and Stock out on Hire	Level 02	2,309,893,463	2,388,020,674
Loans and Advances	Level 02	959,057,649	1,001,492,409
<b>Financial Liabilities</b>			
Interest Bearing Borrowings	Level 02	1,817,597,526	1,667,739,779
Finance Lease	Level 02	4,813,064	4,799,083

For the following list of Financial Instrument whose carrying amount is a reasonable approximation of fair value because, for example, they are short-term in nature or reprice to current market rates frequently.

# Notes to the Financial Statements

Year ended 31 March 2021

## 40. CAPITAL

The Company maintains capital in order to cover risks inherent in the business and meet the capital adequacy requirements of Central Bank of Sri Lanka . The adequacy of the Company's capital is monitored based on the measures, rules and ratios adopted by Central Bank of Sri Lanka.

### 40.1 Capital Management

The primary objective of Company's capital management policy is to ensure that the Company complies with externally imposed capital requirements and healthy capital ratios in order to support its business and to maximize shareholders' value.

#### Regulatory Capital

The Company manages its capital considering the regulatory capital requirements. The Central Bank of Sri Lanka(CBSL) sets and monitors capital requirements for licensed finance companies. Accordingly, finance companies in Sri Lanka need to maintain a minimum total capital adequacy ratio of 11% and a minimum core capital adequacy ratio (Tier I) of 7%.The Company has always maintained the Capital Adequacy Ratio above the minimum regulatory requirements.

## 41. RISK MANAGEMENT

### 41.1 Introduction

Risk is inherent in the company's activities, but is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the company's continuing profitability and each individual within the company is accountable for the risk exposures relating to his or her responsibilities.

#### RISK MANAGEMENT FRAMEWORK

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has delegated its authority to Integrated Risk Management Committee (IRMC) which is responsible for developing and monitoring Company's risk management policies. The Committee is headed by an Independent Non-Executive Director and is comprised of Executive and Non-Executive Directors and Officers performing Executive functions. Meetings of IRMC are held regularly, and the Board of Directors are duly updated of its activities.

#### RISK MANAGEMENT AND REPORTING

Monitoring and controlling risks is primarily performed based on policies, limits & thresholds established by the Company. These limits reflect the business strategy and market environment of the Company as well as the level of risk that the Company is willing to accept.

#### RESPONDING TO COVID - 19 PANDEMIC RISKS

The Company's risk measurement and reporting functions were further strengthened during the year amidst the COVID - 19 pandemic. The credit risk of the Company's loan book increased as the loan repayments were impacted by the lock downs and movement restrictions imposed locally and globally. Further, the Company monitored the liquidity position with concern as it was under pressure due to the payment holidays offered under moratoriums. The operational risks too increased owing to the work from home arrangements etc. during the lock down periods.

Year ended 31 March 2021

In this back drop, the Company took additional measures to ensure that the risks caused by the pandemic are adequately managed.

Continuous reviews of the limits, policies and performance were carried out during the period. Some of these include;

- ↳ Reviewed risk elevated industries in the context of COVID – 19 pandemic.
- ↳ Assessed the impact of the COVID – 19 lock downs and moratoriums (payment holidays) on the portfolio staging.
- ↳ Used of a range of additional stress tests to assess the impact on Company's performance and capital.
- ↳ Strengthened Cyber Security Management in light of the increase in use of digital platforms.
- ↳ Ensured adequate liquidity resources were held to meet Company's obligation, given the uncertainties caused by the pandemic.

## 41.2 Credit Risk

Credit risk is risk arise due to the uncertainty in counterparty's ability to meet its obligations. The risk of loss of principal or loss of a financial reward stemming from a borrower's failure to repay a loan or otherwise meet a contractual obligation.

### 41.2.2 Analysis of Risk Concentration

#### 41.2.2.1 Industry Analysis

The following table shows the risk concentration by industry for the components of the Statement of Financial Position.

### 41.3 Liquidity Risk & Funding Management

Liquidity risk refers to the possibility of Company not having sufficient cash to meet its payment obligations. This arises primarily due to mismatches in the maturity profile of Company's assets and liabilities. Adequate liquidity is critical to meet the Company's financial commitment and to accommodate additional funding needs of the growing business volumes.

The Company's primary objective in liquidity risk management is to ensure adequate funding for its businesses throughout market cycles.

Furthermore the Company maintains the statutory liquid assets ratio at its required level as a method to measure and control the liquidity risk.

#### 41.4 Interest Rate Risk

Interest rate risk is a key constitute of the market risk exposure of the Company due to adverse and unanticipated movements in future interest rate which arises from core business activities; granting of credit facilities, accepting deposits and issuing debt instruments.

Due to the nature of operations of the Company, the impact of interest rate risk is mainly on the earnings of the Company rather than the market value of portfolios. Several factors give rise to interest rate risk; among these are term structure risk, which arises due to the mismatches in the maturities of assets and liabilities; basis risk which is the threat to income arises due to differences in the bases of interest rates.

Excessive movements in market interest rate could result in severe volatility to Company's net interest income and net interest margin. Company's exposure to interest rate risk is primarily associated with factors such as;

# Notes to the Financial Statements

Year ended 31 March 2021

## 41.5 The Impact of Covid – 19 on the Risk Management

The unexpected interruptions to business from start of financial year due to the COVID-19 pandemic resulted slowdown in business transactions of the company. With the developments in certain work measures such as “Work from Home” and re-commencing business operations in the curfew and non-curfew areas, company ensured uninterrupted service to our customers.

The Central Bank of Sri Lanka (CBSL) issued directions and guidelines for financial institutions to offer concessions on individuals and private companies who has adverse short-term impact on their sources of income. Being inline with these directions & guidelines, the company initiated appropriate measures for offering relief to affected customers.

### 41.5.1 Impact on Liquidity Risk

The company was able to maintain a strong liquid asset portfolio during this uncertain period while achieving key activities of the company. This was further strengthen by the funds collect from new share issue, which was taken place in the month of February 2020. In addition, the company took necessary actions to ensure continuation of credit lines with banking institutions and benefited with the debt moratorium offered by banking institutions.

### 41.5.2 Impact on Credit Risk

Business operations of the company are spread around the country and majority of loan and lease advance granted to the customers located outside the western province. This was more helpful to the company to improve the collection from the advance portfolio while reducing the credit risk. In addition, advance portfolio consists with less significant amount of facilities granted to business areas which were effected by Covid-19 such as hotel and tourism industry.

### 41.5.3 Impact of assessment of ECL

SLFRS-09 requires the application of judgements and assumptions, both require and allow entities to adjust their approach to determine ECLs in different circumstances. A number of assumptions and linkages underlying the way ECLs have been implemented to date may no longer hold in the current environment due to Covid-19. The company has assessed ECL based on the available information during the financial period and published guideline of CA Sri Lanka and forecasts of economic conditions by being alert with Covid -19 pandemic.

The extension of payment holiday granted to borrowers in specific industries under government approved debt moratorium shall not automatically result in all those instruments being consider to have suffered a significant increase in credit risk. Consideration also needed to be given on whether the concessions under moratoriums could enable certain borrowers to resume regular payments in foreseeable future and such that significant increase in credit risk would not occur over expected remaining period of the receivables.

The company re-assessed and adjusted certain cash flows to reflect the impact on Covid-19 outbreak in the impairment assessment.

### 41.5.4 Impact on Interest Rate Risk

Due to the impact of Covid-19 pandemic, Central Bank of Sri Lanka reduced policy rates and implemented monetary easing policies to enhance the liquidity of the market to stimulate the economic activities of the country. Company evaluated the impact of the interest rate revisions with the long-term debt obligations obtained with floating rates from banking institutions.

## 42. OPERATING SEGMENTS
